6  
7 The following Amendments to the Standard Specifications are made a part of this contract and  
8 supersede any conflicting provisions of the Standard Specifications. For informational purposes,  
9 the date following each Amendment title indicates the implementation date of the Amendment or  
10 the latest date of revision.

11  
12 Each Amendment contains all current revisions to the applicable section of the Standard  
13 Specifications and may include references which do not apply to this particular project.

14  
15 **Section 1-02, Bid Procedures and Conditions**

16 April 4, 2016

17 **1-02.9 Delivery of Proposal**

18 The last sentence of the third paragraph is revised to read:

19  
20 The Contracting Agency will not open or consider any Proposal when the Proposal or Bid  
21 deposit is received after the time specified for receipt of Proposals or received in a location  
22 other than that specified for receipt of Proposals unless an emergency or unanticipated event  
23 interrupts normal work processes of the Contracting Agency so that Proposals cannot be  
24 received.

25  
26 The following new paragraph is inserted before the last paragraph:

27  
28 If an emergency or unanticipated event interrupts normal work processes of the Contracting  
29 Agency so that Proposals cannot be received at the office designated for receipt of bids as  
30 specified in Section 1-02.12 the time specified for receipt of the Proposal will be deemed to be  
31 extended to the same time of day specified in the solicitation on the first work day on which the

1 **INTRODUCTION**

2  
3 The following Special Provisions are made a part of this contract and supersede any conflicting  
4 provisions of the 2016 Standard Specifications for Road, Bridge, and Municipal Construction, and  
5 the foregoing Amendments to the Standard Specifications.

6  
7 The said Standard Specifications and Amendments thereto, the WSDOT Standard Plans, and  
8 WSDOT Construction Manual, together with the Special Provisions and the attached plans  
9 hereinafter contained, covering all work specified under this contract are incorporated and hereby  
10 made a part of this contract. The Special Provisions hereinafter contained shall supersede any  
11 conflicting provisions of the Standard Specifications and Amendments thereto, the WSDOT  
12 Standard Plans, and WSDOT Construction Manual.

13  
14 Several types of Special Provisions are included in this contract; General, Region, Bridges and  
15 Structures, and Project Specific. Special Provisions types are differentiated as follows:

19		
20	(APWA GSP)	American Public Works Association General Special Provision
21		

22 **General Special Provisions** are similar to Standard Specifications in that they typically apply to  
23 many projects, usually in more than one Region. Usually, the only difference from one project to  
24 another is the inclusion of variable project data, inserted as a "fill-in".

25  
26 **Project Specific Special Provisions** normally appear only in the contract for which they were  
27 developed.

28  
29 The following paragraph pertaining to the Standard Specifications shall obtain and be made a part  
30 of this contract:

31  
32 Wherever the word "State" or "Contracting Agency" is used it shall mean Lewis County; that  
33 wherever the words "Secretary (Secretary of Transportation)" are used they shall mean  
34 Lewis County Engineer; that wherever the words "State Treasurer" are used they shall  
35 mean Lewis County Treasurer; that wherever the words "State Auditor" are used they shall  
36 mean Lewis County Auditor; that wherever the words "Motor Vehicle Fund" are used they

24 information before issuing its final determination. If the final determination affirms that the  
25 Bidder is not responsible, the Contracting Agency will not execute a contract with any other  
26 Bidder until at least two business days after the Bidder determined to be not responsible has  
27 received the Contracting Agency's final determination.

28  
29 Request to Change Supplemental Bidder Responsibility Criteria Prior To Bid: Bidders with  
30 concerns about the relevancy or restrictiveness of the Supplemental Bidder Responsibility  
31 Criteria may make or submit requests to the Contracting Agency to modify the criteria. Such  
32 requests shall be in writing, describe the nature of the concerns, and propose specific  
33 modifications to the criteria. Bidders shall submit such requests to the Contracting Agency no  
34 later than five (5) business days prior to the bid submittal deadline and address the request to  
35 the Project Engineer or such other person designated by the Contracting Agency in the Bid  
36 Documents.

## 6 **1-03, AWARD AND EXECUTION OF CONTRACT**

### 7 **1-03.1 Consideration of Bids**

8 *(\*\*\*\*\*)*  
9

10 Section 1-03.1 is supplemented with the following:  
11

12  
13 Bidders are notified that all bids are likely to be rejected if the lowest responsive bid  
14 received exceeds the Engineer's estimate by an unreasonable amount. In the event all  
15 bids are rejected for this reason, this project may be deferred for re-advertising for bids until  
16 a more competitive situation exists.  
17

### 18 **1-03.3 Execution of Contract**

19 *(October 1, 2005 APWA GSP)*  
20

21 Revise this section to read:  
22

23 Copies of the Contract Provisions, including the unsigned Form of Contract, will be available for  
24 signature by the successful bidder on the first business day following award. The number of  
25 copies to be executed by the Contractor will be determined by the Contracting Agency.  
26

27 Within 20 calendar days after the award date, the successful bidder shall return the signed  
28 Contracting Agency-prepared contract, an insurance certification as required by Section 1-07.18,  
29 and a satisfactory bond as required by law and Section 1-03.4. Before execution of the contract  
30 by the Contracting Agency, the successful bidder shall provide any pre-award information the  
31 Contracting Agency may require under Section 1-02.15.  
32

33 Until the Contracting Agency executes a contract, no proposal shall bind the Contracting Agency  
34 nor shall any work begin within the project limits or within Contracting Agency-furnished sites.  
35 The Contractor shall bear all risks for any work begun outside such areas and for any materials  
36 ordered before the contract is executed by the Contracting Agency.  
37

38 If the bidder experiences circumstances beyond their control that prevents return of the contract  
39 documents within the calendar days after the award date stated above, the Contracting Agency  
40 may grant up to a maximum of 5 additional calendar days for return of the documents, provided  
41 the Contracting Agency deems the circumstances warrant it.  
42

### 43 **1-03.4 Contract Bond**

44 *(July 23, 2015 APWA GSP)*  
45

46 Delete the first paragraph and replace it with the following:  
47

48 The successful bidder shall provide executed payment and performance bond(s) for the full  
49 contract amount. The bond may be a combined payment and performance bond; or be  
50 separate payment and performance bonds. In the case of separate payment and performance  
51 bonds, each shall be for the full contract amount. The bond(s) shall:

- 1 1. Be on Contracting Agency-furnished form(s);
- 2 2. Be signed by an approved surety (or sureties) that:
  - 3 a. Is registered with the Washington State Insurance Commissioner, and
  - 4 b. Appears on the current Authorized Insurance List in the State of Washington published
  - 5 by the Office of the Insurance Commissioner,
- 6 3. Guarantee that the Contractor will perform and comply with all obligations, duties, and
- 7 conditions under the Contract, including but not limited to the duty and obligation to
- 8 indemnify, defend, and protect the Contracting Agency against all losses and claims related
- 9 directly or indirectly from any failure:
  - 10 a. Of the Contractor (or any of the employees, subcontractors, or lower tier subcontractors
  - 11 of the Contractor) to faithfully perform and comply with all contract obligations,
  - 12 conditions, and duties, or
  - 13 b. Of the Contractor (or the subcontractors or lower tier subcontractors of the Contractor)
  - 14 to pay all laborers, mechanics, subcontractors, lower tier subcontractors, material
  - 15 person, or any other person who provides supplies or provisions for carrying out the
  - 16 work;
- 17 4. Be conditioned upon the payment of taxes, increases, and penalties incurred on the project
- 18 under titles 50, 51, and 82 RCW; and
- 19 5. Be accompanied by a power of attorney for the Surety's officer empowered to sign the
- 20 bond; and
- 21 6. Be signed by an officer of the Contractor empowered to sign official statements (sole
- 22 proprietor or partner). If the Contractor is a corporation, the bond(s) must be signed by the
- 23 president or vice president, unless accompanied by written proof of the authority of the
- 24 individual signing the bond(s) to bind the corporation (i.e., corporate resolution, power of
- 25 attorney, or a letter to such effect signed by the president or vice president).

## 27 **1-05, CONTROL OF WORK**

### 28 **1-05.7 Removal of Defective and Unauthorized Work**

29 *(October 1, 2005 APWA GSP)*

30  
31 Supplement this section with the following:

32  
33 If the Contractor fails to remedy defective or unauthorized work within the time specified in a  
34 written notice from the Engineer, or fails to perform any part of the work required by the  
35 Contract Documents, the Engineer may correct and remedy such work as may be identified in  
36 the written notice, with Contracting Agency forces or by such other means as the Contracting  
37 Agency may deem necessary.

38  
39 If the Contractor fails to comply with a written order to remedy what the Engineer determines to  
40 be an emergency situation, the Engineer may have the defective and unauthorized work  
41 corrected immediately, have the rejected work removed and replaced, or have work the  
42 Contractor refuses to perform completed by using Contracting Agency or other forces. An  
43 emergency situation is any situation when, in the opinion of the Engineer, a delay in its remedy  
44 could be potentially unsafe, or might cause serious risk of loss or damage to the public.

45  
46 Direct or indirect costs incurred by the Contracting Agency attributable to correcting and  
47 remedying defective or unauthorized work, or work the Contractor failed or refused to perform,  
48 shall be paid by the Contractor. Payment will be deducted by the Engineer from monies due, or  
49 to become due, the Contractor. Such direct and indirect costs shall include in particular, but  
50 without limitation, compensation for additional professional services required, and costs for repair

1 and replacement of work of others destroyed or damaged by correction, removal, or replacement  
2 of the Contractor's unauthorized work.

3  
4 No adjustment in contract time or compensation will be allowed because of the delay in the  
5 performance of the work attributable to the exercise of the Contracting Agency's rights provided  
6 by this Section.

7  
8 The rights exercised under the provisions of this section shall not diminish the Contracting  
9 Agency's right to pursue any other avenue for additional remedy or damages with respect to the  
10 Contractor's failure to perform the work as required.

11  
12 **1-05.13 Superintendents, Labor and Equipment of Contractor**  
13 *(August 14, 2013 APWA GSP)*

14  
15 Delete the sixth and seventh paragraphs of this section.

16  
17 **1-05.15 Method of Serving Notices**  
18 *(March 25, 2009 APWA GSP)*

19 Revise the second paragraph to read:

20  
21 All correspondence from the Contractor shall be directed to the Project Engineer. All  
22 correspondence from the Contractor constituting any notification, notice of protest, notice of  
23 dispute, or other correspondence constituting notification required to be furnished under the  
24 Contract, must be in paper format, hand delivered or sent via mail delivery service to the  
25 Project Engineer's office. Electronic copies such as e-mails or electronically delivered copies of  
26 correspondence will not constitute such notice and will not comply with the requirements of the  
27 Contract.

28  
29 **1-07, LEGAL RELATIONS AND RESPONSIBILITIES TO THE PUBLIC**

30  
31 **1-07.2 State Taxes**

32  
33 Delete this section, including its sub-sections, in its entirety and replace it with the following:

34  
35 **1-07.2 State Sales Tax**  
36 *(June 27, 2011 APWA GSP)*

37  
38 The Washington State Department of Revenue has issued special rules on the State sales tax.  
39 Sections 1-07.2(1) through 1-07.2(3) are meant to clarify those rules. The Contractor should  
40 contact the Washington State Department of Revenue for answers to questions in this area.  
41 The Contracting Agency will not adjust its payment if the Contractor bases a bid on a  
42 misunderstood tax liability.

43  
44 The Contractor shall include all Contractor-paid taxes in the unit bid prices or other contract  
45 amounts. In some cases, however, state retail sales tax will not be included. Section 1-07.2(2)  
46 describes this exception.

47  
48 The Contracting Agency will pay the retained percentage (or release the Contract Bond if a  
49 FHWA-funded Project) only if the Contractor has obtained from the Washington State  
50 Department of Revenue a certificate showing that all contract-related taxes have been paid  
51 (RCW 60.28.051). The Contracting Agency may deduct from its payments to the Contractor

1 any amount the Contractor may owe the Washington State Department of Revenue, whether  
2 the amount owed relates to this contract or not. Any amount so deducted will be paid into the  
3 proper State fund.

#### 4 5 **1-07.2(1) State Sales Tax — Rule 171**

6  
7 WAC 458-20-171, and its related rules, apply to building, repairing, or improving streets, roads,  
8 etc., which are owned by a municipal corporation, or political subdivision of the state, or by the  
9 United States, and which are used primarily for foot or vehicular traffic. This includes storm or  
10 combined sewer systems within and included as a part of the street or road drainage system  
11 and power lines when such are part of the roadway lighting system. For work performed in  
12 such cases, the Contractor shall include Washington State Retail Sales Taxes in the various  
13 unit bid item prices, or other contract amounts, including those that the Contractor pays on the  
14 purchase of the materials, equipment, or supplies used or consumed in doing the work.

#### 15 16 **1-07.2(2) State Sales Tax — Rule 170**

17  
18 WAC 458-20-170, and its related rules, apply to the constructing and repairing of new or  
19 existing buildings, or other structures, upon real property. This includes, but is not limited to,  
20 the construction of streets, roads, highways, etc., owned by the state of Washington; water  
21 mains and their appurtenances; sanitary sewers and sewage disposal systems unless such  
22 sewers and disposal systems are within, and a part of, a street or road drainage system;  
23 telephone, telegraph, electrical power distribution lines, or other conduits or lines in or above  
24 streets or roads, unless such power lines become a part of a street or road lighting system; and  
25 installing or attaching of any article of tangible personal property in or to real property, whether  
26 or not such personal property becomes a part of the realty by virtue of installation.

27  
28 For work performed in such cases, the Contractor shall collect from the Contracting Agency,  
29 retail sales tax on the full contract price. The Contracting Agency will automatically add this  
30 sales tax to each payment to the Contractor. For this reason, the Contractor shall not include  
31 the retail sales tax in the unit bid item prices, or in any other contract amount subject to Rule  
32 170, with the following exception.

33  
34 Exception: The Contracting Agency will not add in sales tax for a payment the Contractor or a  
35 subcontractor makes on the purchase or rental of tools, machinery, equipment, or consumable  
36 supplies not integrated into the project. Such sales taxes shall be included in the unit bid item  
37 prices or in any other contract amount.

#### 38 39 **1-07.2(3) Services**

40  
41 The Contractor shall not collect retail sales tax from the Contracting Agency on any contract  
42 wholly for professional or other services (as defined in Washington State Department of  
43 Revenue Rules 138 and 244).

#### 44 45 **1-07.7 Load Limits**

46 Section 1-07.7 is supplemented with the following:

47  
48 (\*\*\*\*\*)

49 The Contractor shall provide a list of trucks and gross legal weights.

50  
51 (\*\*\*\*\*)

52 If the sources of materials provided by the Contractor necessitate hauling over roads other than  
53 County roads, the Contractor shall, at the Contractor's expense, make all arrangements for the  
54 use of the haul routes including all necessary local permits.

1 **1-07.9 Wages**

2  
3 **1-07.9(1) General**

4 (\*\*\*\*\*)

5 Section 1-07.9(1) is supplemented with the following:

6  
7 The State rates incorporated in this contract are applicable to all construction activities  
8 associated with this contract.

9  
10 (April 2, 2007)

11 **Application of Wage Rates For The Occupation Of Landscape Construction**

12  
13 State prevailing wage rates for public works contracts are included in this contract and show a  
14 separate listing for the occupation:

15  
16 Landscape Construction, which includes several different occupation descriptions such as:  
17 Irrigation and Landscape Plumbers, Irrigation and Landscape Power Equipment Operators,  
18 and Landscaping or Planting Laborers.

19  
20 In addition, federal wage rates that are included in this contract may also include occupation  
21 descriptions in Federal Occupational groups for work also specifically identified with landscaping  
22 such as:

23  
24 Laborers with the occupation description, Landscaping or Planting, or

25  
26 Power Equipment Operators with the occupation description, Mulch Seeding Operator.

27  
28 If Federal wage rates include one or more rates specified as applicable to landscaping work, then  
29 Federal wage rates for all occupation descriptions, specific or general, must be considered and  
30 compared with corresponding State wage rates. The higher wage rate, either State or Federal,  
31 becomes the minimum wage rate for the work performed in that occupation.

32  
33 Contractors are responsible for determining the appropriate crafts necessary to perform the  
34 contract work. If a classification considered necessary for performance of the work is missing from  
35 the Federal Wage Determination applicable to the contract, the Contractor shall initiate a request  
36 for approval of a proposed wage and benefit rate. The Contractor shall prepare and submit  
37 Standard Form 1444, Request for Authorization of Additional Classification and Wage Rate  
38 available at <http://www.wdol.gov/docs/sf1444.pdf>, and submit the completed form to the Project  
39 Engineer's office. The presence of a classification wage on the Washington State Prevailing Wage  
40 Rates For Public Works Contracts does not exempt the use of form 1444 for the purpose of  
41 determining a federal classification wage rate.

42  
43 (\*\*\*\*\*)

44 **Note: No landscape construction is anticipated in this contract. The above listed**  
45 **occupation is provided as an example. It is the Contractor's responsibility to determine the**  
46 **appropriate crafts and wage rates necessary to perform the contract work.**

47  
48 **1-07.11 Requirements For Nondiscrimination**

8 These goals are applicable to each nonexempt Contractor's total on-site construction  
9 workforce, regardless of whether or not part of that workforce is performing work on a  
10 Federal, or federally assisted project, contract, or subcontract until further notice.  
11 Compliance with these goals and time tables is enforced by the Office of Federal Contract  
12 compliance Programs.  
13

14 The Contractor's compliance with the Executive Order and the regulations in 41 CFR Part  
15 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific  
16 affirmative action obligations required by the specifications set forth in 41 CFR 60-4.3(a),  
17 and its efforts to meet the goals. The hours of minority and female employment and  
18 training must be substantially uniform throughout the length of the contract, in each  
19 construction craft and in each trade, and the Contractor shall make a good faith effort to  
20 employ minorities and women evenly on each of its projects. The transfer of minority or  
21 female employees or trainees from Contractor to Contractor or from project to project for  
22 the sole purpose of meeting the Contractor's goal shall be a violation of the contract, the  
23 Executive Order and the regulations in 41 CFR Part 60-4. Compliance with the goals will  
24 be measured against the total work hours performed.  
25

- 26 3. The Contractor shall provide written notification to the Office of Federal Contract  
27 Compliance Programs (OFCCP) within 10 working days of award of any construction  
28 subcontract in excess of \$10,000 or more that are Federally funded, at any tier for  
29 construction work under the contract resulting from this solicitation. The notification shall  
30 list the name, address and telephone number of the Subcontractor; employer  
31 identification number of the Subcontractor; estimated dollar amount of the subcontract;  
32 estimated starting and completion dates of the subcontract; and the geographical area in  
33 which the contract is to be performed. The notification shall be sent to:

- a. Covered Area means the geographical area described in the solicitation from which this contract resulted;
- b. Director means Director, Office of Federal Contract Compliance Programs, United States Department of Labor, or any person to whom the Director delegates authority;
- c. Employer Identification Number means the Federal Social Security number used on the Employer's Quarterly Federal Tax Return, U. S. Treasury Department Form 941;
- d. Minority includes:

- (1) Black, a person having origins in any of the Black Racial Groups of Africa.
- (2) Hispanic, a fluent Spanish speaking, Spanish surnamed person of Mexican, Puerto Rican, Cuban, Central American, South American, or other Spanish origin.
- (3) Asian or Pacific Islander, a person having origins in any of the original peoples of the Pacific rim or the Pacific Islands, the Hawaiian Islands and Samoa.
- (4) American Indian or Alaskan Native, a person having origins in any of the original peoples of North America, and who maintain cultural identification through tribal affiliation or community recognition.

- 2. Whenever the Contractor, or any Subcontractor at any tier, subcontracts a portion of the work involving any construction trade, it shall physically include in each subcontract in excess of \$10,000 the provisions of these specifications and the Notice which contains the applicable goals for minority and female participation and which is set forth in the solicitations from which this contract resulted.
- 3. If the Contractor is participating (pursuant to 41 CFR 60-4.5) in a Hometown Plan approved by the U.S. Department of Labor in the covered area either individually or through an association, its affirmative action obligations on all work in the Plan area (including goals and timetables) shall be in accordance with that Plan for those trades which have unions participating in the Plan. Contractors must be able to demonstrate their participation in and compliance with the provisions of any such Hometown Plan. Each Contractor or Subcontractor participating in an approved Plan is individually required to comply with its obligations under the EEO clause, and to make a good faith effort to achieve each goal under the Plan in each trade in which it has employees. The overall good faith performance by other Contractors or Subcontractors toward a goal in an approved Plan does not excuse any covered Contractor's or Subcontractor's failure to take good faith effort to achieve the Plan goals and timetables.
- 4. The Contractor shall implement the specific affirmative action standards provided in paragraphs 7a through 7p of this Special Provision. The goals set forth in the solicitation from which this contract resulted are expressed as percentages of the total hours of employment and training of minority and female utilization the Contractor should reasonably be able to achieve in each construction trade in which it has employees in the covered area. Covered construction contractors performing construction work in

1 geographical areas where they do not have a Federal or federally assisted construction  
2 contract shall apply the minority and female goals established for the geographical area  
3 where the work is being performed. The Contractor is expected to make substantially  
4 uniform progress in meeting its goals in each craft during the period specified.

- 5
- 6 5. Neither the provisions of any collective bargaining agreement, nor the failure by a union  
7 with whom the Contractor has a collective bargaining agreement, to refer either minorities  
8 or women shall excuse the Contractor's obligations under these specifications, Executive  
9 Order 11246, or the regulations promulgated pursuant thereto.
- 10
- 11 6. In order for the nonworking training hours of apprentices and trainees to be counted in  
12 meeting the goals, such apprentices and trainees must be employed by the Contractor  
13 during the training period, and the Contractor must have made a commitment to employ  
14 the apprentices and trainees at the completion of their training, subject to the availability  
15 of employment opportunities. Trainees must be trained pursuant to training programs  
16 approved by the U.S. Department of Labor.
- 17
- 18 7. The Contractor shall take specific affirmative actions to ensure equal employment  
19 opportunity. The evaluation of the Contractor's compliance with these specifications shall  
20 be based upon its effort to achieve maximum results from its action. The Contractor shall  
21 document these efforts fully, and shall implement affirmative action steps at least as  
22 extensive as the following:
- 23
- 24 a. Ensure and maintain a working environment free of harassment, intimidation,  
25 and coercion at all sites, and in all facilities at which the Contractor's employees  
26 are assigned to work. The Contractor, where possible, will assign two or more  
27 women to each construction project. The Contractor shall specifically ensure  
28 that all foremen, superintendents, and other on-site supervisory personnel are  
29 aware of and carry out the Contractor's obligation to maintain such a working  
30 environment, with specific attention to minority or female individuals working at  
31 such sites or in such facilities.
- 32
- 33 b. Establish and maintain a current list of minority and female recruitment sources,  
34 provide written notification to minority and female recruitment sources and to  
35 community organizations when the Contractor or its unions have employment  
36 opportunities available, and maintain a record of the organizations' responses.
- 37
- 38 c. Maintain a current file of the names, addresses and telephone numbers of each  
39 minority and female off-the-street applicant and minority or female referral from a  
40 union, a recruitment source or community organization and of what action was  
41 taken with respect to each such individual. If such individual was sent to the  
42 union hiring hall for referral and was not referred back to the Contractor by the  
43 union or, if referred, not employed by the Contractor, this shall be documented in

45 Contractor may have taken.
- 46
- 47 d. Provide immediate written notification to the Director when the union or unions  
48 with which the Contractor has a collective bargaining agreement has not referred  
49 to the Contractor a minority person or woman sent by the Contractor, or when

- e. Develop on-the-job training opportunity and/or participate in training programs for the area which expressly include minorities and women, including upgrading programs and apprenticeship and trainee programs relevant to the Contractor's employment needs, especially those programs funded or approved by the U.S. Department of Labor. The Contractor shall provide notice of these programs to the sources compiled under 7b above.
  - f. Disseminate the Contractor's EEO policy by providing notice of the policy to unions and training programs and requesting their cooperation in assisting the Contractor in meeting its EEO obligations; by including it in any policy manual and collective bargaining agreement; by publicizing it in the company newspaper, annual report, etc.; by specific review of the policy with all management personnel and with all minority and female employees at least once a year; and by posting the company EEO policy on bulletin boards accessible to all employees at each location where construction work is performed.
  - g. Review, at least annually, the company's EEO policy and affirmative action obligations under these specifications with all employees having any responsibility for hiring, assignment, layoff, termination or other employment decisions including specific review of these items with on-site supervisory personnel such as Superintendents, General Foremen, etc., prior to the initiation of construction work at any job site. A written record shall be made and maintained identifying the time and place of these meetings, persons attending, subject matter discussed, and disposition of the subject matter.
  - h. Disseminate the Contractor's EEO policy externally by including it in any advertising in the news media, specifically including minority and female news media, and providing written notification to and discussing the Contractor's EEO policy with other Contractors and Subcontractors with whom the Contractor does or anticipates doing business.
  - i. Direct its recruitment efforts, both oral and written to minority, female and community organizations, to schools with minority and female students and to minority and female recruitment and training organizations serving the Contractor's recruitment area and employment needs. Not later than one month prior to the date for the acceptance of applications for apprenticeship or other training by any recruitment source, the Contractor shall send written notification to organizations such as the above, describing the openings, screening procedures, and tests to be used in the selection process.
  - j. Encourage present minority and female employees to recruit other minority persons and women and where reasonable, provide after school, summer and vacation employment to minority and female youth both on the site and in other areas of a Contractor's work force.
  - k. Validate all tests and other selection requirements where there is an obligation to do so under 41 CFR Part 60-3.
  - l. Conduct, at least annually, an inventory and evaluation of all minority and female personnel for promotional opportunities and encourage these employees to seek or to prepare for, through appropriate training, etc., such opportunities.

- 1 m. Ensure that seniority practices, job classifications, work assignments and other  
2 personnel practices, do not have a discriminatory effect by continually monitoring  
3 all personnel and employment related activities to ensure that the EEO policy  
4 and the Contractor's obligations under these specifications are being carried out.  
5
- 6 n. Ensure that all facilities and company activities are nonsegregated except that  
7 separate or single-user toilet and necessary changing facilities shall be provided  
8 to assure privacy between the sexes.  
9
- 10 o. Document and maintain a record of all solicitations of offers for subcontracts  
11 from minority and female construction contractors and suppliers, including  
12 circulation of solicitations to minority and female contractor associations and  
13 other business associations.  
14
- 15 p. Conduct a review, at least annually, of all supervisors' adherence to and  
16 performance under the Contractor's EEO policies and affirmative action  
17 obligations.  
18
- 19 8. Contractors are encouraged to participate in voluntary associations which assist in  
20 fulfilling one or more of their affirmative action obligations (7a through 7p). The efforts of  
21 a contractor association, joint contractor-union, contractor-community, or other similar  
22 group of which the Contractor is a member and participant, may be asserted as fulfilling  
23 any one or more of the obligations under 7a through 7p of this Special Provision provided  
24 that the Contractor actively participates in the group, makes every effort to assure that the  
25 group has a positive impact on the employment of minorities and women in the industry,  
26 ensure that the concrete benefits of the program are reflected in the Contractor's minority  
27 and female work-force participation, makes a good faith effort to meet its individual goals  
28 and timetables, and can provide access to documentation which demonstrate the  
29 effectiveness of actions taken on behalf of the Contractor. The obligation to comply,  
30 however, is the Contractor's and failure of such a group to fulfill an obligation shall not be  
31 a defense for the Contractor's noncompliance.  
32
- 33 9. A single goal for minorities and a separate single goal for women have been established.  
34 The Contractor, however, is required to provide equal employment opportunity and to take  
35 affirmative action for all minority groups, both male and female, and all women, both  
36 minority and non-minority. Consequently, the Contractor may be in violation of the  
37 Executive Order if a particular group is employed in substantially disparate manner (for  
38 example, even though the Contractor has achieved its goals for women generally, the  
39 Contractor may be in violation of the Executive Order if a specific minority group of  
40 women is underutilized).  
41
- 42 10. The Contractor shall not use the goals and timetables or affirmative action standards to  
43 discriminate against any person because of race, color, religion, sex, or national origin.  
44
- 45 11. The Contractor shall not enter into any subcontract with any person or firm debarred from  
46 Government contracts pursuant to Executive Order 11246.  
47
- 48 12. The Contractor shall carry out such sanctions and penalties for violation of these  
49 specifications and of the Equal Opportunity Clause, including suspensions, terminations  
50 and cancellations of existing subcontracts as may be imposed or ordered pursuant to  
51 Executive Order 11246, as amended, and its implementing regulations by the Office of  
52 Federal Contract Compliance Programs. Any Contractor who fails to carry out such

1 sanctions and penalties shall be in violation of these specifications and Executive Order  
2 11246, as amended.

- 3
- 4 13. The Contractor, in fulfilling its obligations under these specifications, shall implement  
5 specific affirmative action steps, at least as extensive as those standards prescribed in  
6 paragraph 7 of this Special Provision, so as to achieve maximum results from its efforts to  
7 ensure equal employment opportunity. If the Contractor fails to comply with the  
8 requirements of the Executive Order, the implementing regulations, or these  
9 specifications, the Director shall proceed in accordance with 41 CFR 60-4.8.
- 10
- 11 14. The Contractor shall designate a responsible official to monitor all employment related  
12 activity to ensure that the company EEO policy is being carried out, to submit reports  
13 relating to the provisions hereof as may be required by the government and to keep  
14 records. Records shall at least include, for each employee, their name, address,  
15 telephone numbers, construction trade, union affiliation if any, employee identification  
16 number when assigned, social security number, race, sex, status (e.g., mechanic,  
17 apprentice, trainee, helper, or laborer), dates of changes in status, hours worked per  
18 week in the indicated trade, rate of pay, and locations at which the work was performed.  
19 Records shall be maintained in an easily understandable and retrievable form; however,  
20 to the degree that existing records satisfy this requirement, the Contractors will not be  
21 required to maintain separate records.
- 22
- 23 15. Nothing herein provided shall be construed as a limitation upon the application of other  
24 laws which establish different standards of compliance or upon the application of  
25 requirements for the hiring of local or other area residents (e.g., those under the Public  
26 Works Employment Act of 1977 and the Community Development Block Grant Program).

#### 34 **1-07.18 Insurance**

35 *(January 4, 2016 APWA GSP)*  
36

#### 37 **1-07.18(1) General Requirements**

- 38 A. The Contractor shall procure and maintain the insurance described in all subsections of section  
39 1-07.18 of these Special Provisions, from insurers with a current A. M. Best rating of not less  
40 than A-: VII and licensed to do business in the State of Washington. The Contracting Agency  
41 reserves the right to approve or reject the insurance provided, based on the insurer's financial  
42 condition.  
43
- 44 B. The Contractor shall keep this insurance in force without interruption from the commencement  
45 of the Contractor's Work through the term of the Contract and for thirty (30) days after the  
46 Physical Completion date, unless otherwise indicated below.  
47
- 48 C. If any insurance policy is written on a claims made form, its retroactive date, and that of all  
49 subsequent renewals, shall be no later than the effective date of this Contract. The policy shall  
50 state that coverage is claims made, and state the retroactive date. Claims-made form  
51 coverage shall be maintained by the Contractor for a minimum of 36 months following the  
52 Completion Date or earlier termination of this Contract, and the Contractor shall annually  
53 provide the Contracting Agency with proof of renewal. If renewal of the claims made form of  
54 coverage becomes unavailable, or economically prohibitive, the Contractor shall purchase an

1 extended reporting period ("tail") or execute another form of guarantee acceptable to the  
2 Contracting Agency to assure financial responsibility for liability for services performed.

- 3
- 4 D. The Contractor's Automobile Liability, Commercial General Liability and Excess or Umbrella  
5 Liability insurance policies shall be primary and non-contributory insurance as respects the  
6 Contracting Agency's insurance, self-insurance, or self-insured pool coverage. Any insurance,  
7 self-insurance, or self-insured pool coverage maintained by the Contracting Agency shall be  
8 excess of the Contractor's insurance and shall not contribute with it.
- 9
- 10 E. The Contractor shall provide the Contracting Agency and all additional insureds with written  
11 notice of any policy cancellation, within two business days of their receipt of such notice.
- 12
- 13 G. The Contractor shall not begin work under the Contract until the required insurance has been  
14 obtained and approved by the Contracting Agency
- 15
- 16 H. Failure on the part of the Contractor to maintain the insurance as required shall constitute a  
17 material breach of contract, upon which the Contracting Agency may, after giving five business  
18 days' notice to the Contractor to correct the breach, immediately terminate the Contract or, at  
19 its discretion, procure or renew such insurance and pay any and all premiums in connection  
20 therewith, with any sums so expended to be repaid to the Contracting Agency on demand, or at  
21 the sole discretion of the Contracting Agency, offset against funds due the Contractor from the  
22 Contracting Agency.
- 23
- 24 I. All costs for insurance shall be incidental to and included in the unit or lump sum prices of the  
25 Contract and no additional payment will be made.

26

27 **1-07.18(2) Additional Insured**

28 All insurance policies, with the exception of Workers Compensation, and of Professional Liability  
29 and Builder's Risk (if required by this Contract) shall name the following listed entities as additional  
30 insured(s) using the forms or endorsements required herein:

- 31
  - the Contracting Agency and its officers, elected officials, employees, agents, and volunteers

32

33 The above-listed entities shall be additional insured(s) for the full available limits of liability  
34 maintained by the Contractor, irrespective of whether such limits maintained by the Contractor are  
35 greater than those required by this Contract, and irrespective of whether the Certificate of  
36 Insurance provided by the Contractor pursuant to 1-07.18(4) describes limits lower than those  
37 maintained by the Contractor.

38

39 For Commercial General Liability insurance coverage, the required additional insured  
40 endorsements shall be at least as broad as ISO forms CG 20 10 10 01 for ongoing operations and  
41 CG 20 37 10 01 for completed operations.

42

43 **1-07.18(3) Subcontractors**

44 The Contractor shall cause each Subcontractor of every tier to provide insurance coverage that  
45 complies with all applicable requirements of the Contractor-provided insurance as set forth herein,  
46 except the Contractor shall have sole responsibility for determining the limits of coverage required  
47 to be obtained by Subcontractors.

48

49 The Contractor shall ensure that all Subcontractors of every tier add all entities listed in 1-07.18(2)  
50 as additional insureds, and provide proof of such on the policies as required by that section as  
51 detailed in 1-07.18(2) using an endorsement as least as broad as ISO CG 20 10 10 01 for ongoing  
52 operations and CG 20 37 10 01 for completed operations.

1 Upon request by the Contracting Agency, the Contractor shall forward to the Contracting Agency  
2 evidence of insurance and copies of the additional insured endorsements of each Subcontractor of  
3 every tier as required in 1-07.18(4) Verification of Coverage.

4  
5 **1-07.18(4) Verification of Coverage**

6 The Contractor shall deliver to the Contracting Agency a Certificate(s) of Insurance and  
7 endorsements for each policy of insurance meeting the requirements set forth herein when the  
8 Contractor delivers the signed Contract for the work. Failure of Contracting Agency to demand  
9 such verification of coverage with these insurance requirements or failure of Contracting Agency to  
10 identify a deficiency from the insurance documentation provided shall not be construed as a waiver  
11 of Contractor's obligation to maintain such insurance.

12  
13 Verification of coverage shall include:

- 14 1. An ACORD certificate or a form determined by the Contracting Agency to be equivalent.
- 15 2. Copies of all endorsements naming Contracting Agency and all other entities listed in  
16 1-07.18(2) as additional insured(s), showing the policy number. The Contractor may submit a  
17 copy of any blanket additional insured clause from its policies instead of a separate  
18 endorsement.
- 19 3. Any other amendatory endorsements to show the coverage required herein.
- 20 4. A notation of coverage enhancements on the Certificate of Insurance shall not satisfy these  
21 requirements – actual endorsements must be submitted.

22  
23 Upon request by the Contracting Agency, the Contractor shall forward to the Contracting Agency a  
24 full and certified copy of the insurance policy(s). If Builders Risk insurance is required on this  
25 Project, a full and certified copy of that policy is required when the Contractor delivers the signed  
26 Contract for the work.

27  
28 **1-07.18(5) Coverages and Limits**

29 The insurance shall provide the minimum coverages and limits set forth below. Contractor's  
30 maintenance of insurance, its scope of coverage, and limits as required herein shall not be  
31 construed to limit the liability of the Contractor to the coverage provided by such insurance, or  
32 otherwise limit the Contracting Agency's recourse to any remedy available at law or in equity.

33  
34 All deductibles and self-insured retentions must be disclosed and are subject to approval by the  
35 Contracting Agency. The cost of any claim payments falling within the deductible or self-insured  
36 retention shall be the responsibility of the Contractor. In the event an additional insured incurs a  
37 liability subject to any policy's deductibles or self-insured retention, said deductibles or self-insured  
38 retention shall be the responsibility of the Contractor.

39  
40 **1-07.18(5)A Commercial General Liability**

41 Commercial General Liability insurance shall be written on coverage forms at least as broad as  
42 ISO occurrence form CG 00 01, including but not limited to liability arising from premises,  
43 operations, stop gap liability, independent contractors, products-completed operations, personal  
44 and advertising injury, and liability assumed under an insured contract. There shall be no  
45 exclusion for liability arising from explosion, collapse or underground property damage.

46  
47 The Commercial General Liability insurance shall be endorsed to provide a per project general  
48 aggregate limit, using ISO form CG 25 03 05 09 or an equivalent endorsement.

49  
50 Contractor shall maintain Commercial General Liability Insurance arising out of the Contractor's  
51 completed operations for at least three years following Substantial Completion of the Work.

13  
14 Prior to the Contractor beginning the work, a preconstruction conference will be held between  
15 the Contractor, the Engineer and such other interested parties as may be invited. The purpose

6 are being requested, and why. Requests shall be submitted for review no later than 3 working

15 necessary by the Engineer include, but are not limited to: survey crews; personnel from

24 will be charged as a working day.
- 25 5. If Davis Bacon wage rates apply to this Contract, all requirements must be met and  
26 recorded properly on certified payroll

27

13

14 **Contractor's Weekly Activities**

15 *(\*\*\*\*\*)*

16 The Contractor shall submit a weekly schedule to the Engineer. The schedule shall  
17 indicate the Contractor's proposed activities for the forthcoming week along with the hours  
18 of work. This will permit the Engineer to more effectively provide the contract engineering  
19 and inspection for the Contractor's operations.  
20

21 The written weekly activity schedule shall be submitted to the Engineer or a designated  
22 assistant before the end of the last shift on the next to the last working day of the week  
23 preceding the indicated activities, or other mutually agreeable time.  
24

25 If the Contractor proceeds with work not indicated on the weekly activity schedule, or in a

44 days of the Notice to Proceed Date, unless otherwise approved in writing. The Contractor shall  
45 diligently pursue the work to the physical completion date within the time specified in the  
46 contract. Voluntary shutdown or slowing of operations by the Contractor shall not relieve the  
47 Contractor of the responsibility to complete the work within the time(s) specified in the contract.  
48  
49

50 **1-08.5 Time for Completion**

51 *(March 13, 1995)*

### 14 **1-09.9 Payments**

15 *(March 13, 2012 APWA GSP)*  
16

17 Delete the first four paragraphs and replace them with the following:  
18

19 The basis of payment will be the actual quantities of Work performed according to the Contract  
20 and as specified for payment.  
21

22 The Contractor shall submit a breakdown of the cost of lump sum bid items at the  
23 Preconstruction Conference, to enable the Project Engineer to determine the Work performed  
24 on a monthly basis. A breakdown is not required for lump sum items that include a basis for  
25 incremental payments as part of the respective Specification. Absent a lump sum breakdown,  
26 the Project Engineer will make a determination based on information available. The Project  
27 Engineer's determination of the cost of work shall be final.  
28

29 Progress payments for completed work and material on hand will be based upon progress  
30 estimates prepared by the Engineer. A progress estimate cutoff date will be established at the  
31 preconstruction conference.  
32

33 The initial progress estimate will be made not later than 30 days after the Contractor  
34 commences the work, and successive progress estimates will be made every month thereafter  
35 until the Completion Date. Progress estimates made during progress of the work are tentative,  
36 and made only for the purpose of determining progress payments. The progress estimates are  
37 subject to change at any time prior to the calculation of the final payment.  
38

39 The value of the progress estimate will be the sum of the following:

- 40 1. Unit Price Items in the Bid Form — the approximate quantity of acceptable units of work  
41 completed multiplied by the unit price.
- 42 2. Lump Sum Items in the Bid Form — based on the approved Contractor's lump sum  
43 breakdown for that item, or absent such a breakdown, based on the Engineer's  
44 determination.
- 45 3. Materials on Hand — 100 percent of invoiced cost of material delivered to Job site or  
46 other storage area approved by the Engineer.
- 47 4. Change Orders — entitlement for approved extra cost or completed extra work as  
48 determined by the Engineer.

1  
2 Progress payments will be made in accordance with the progress estimate less:

- 3 1. Retainage per Section 1-09.9(1), on non FHWA-funded projects;  
4 2. The amount of progress payments previously made; and  
5 3. Funds withheld by the Contracting Agency for disbursement in accordance with the  
6 Contract Documents.  
7

8 Progress payments for work performed shall not be evidence of acceptable performance or an  
9 admission by the Contracting Agency that any work has been satisfactorily completed. The  
10 determination of payments under the contract will be final in accordance with Section 1-05.1.

11  
12 **1-09.9(1) Retainage**

13 Section 1-09.9(1) is supplemented with the following:

24 Washington. The venue of any claims or causes of actions arising from this contract shall  
25 be in Superior Court of the county where the work is performed.  
26

27  
28 For the convenience of the parties of this contract, it is mutually agreed that any claims or  
29 causes of action which the Contractor has against the Contracting Agency arising from this  
30 contract shall be brought within 180 days from the date of Final Acceptance of the contract  
31 by the Contracting Agency. The parties understand and agree that the Contractor's failure  
32 to bring such suit within the time period provided shall be a complete bar to any such claims  
33 or causes of action.  
34

35 It is further mutually agreed by the parties that when any claims or causes of action which a  
36 Contractor asserts against the Contracting Agency arising from this contract are filed with  
37 the Contracting Agency or initiated in court, the Contractor shall permit the Contracting  
38 Agency to have timely access to any records deemed necessary by the Contracting Agency  
39 to assist in evaluating the claims or actions.

49 \$250,000 or less, submitted in accordance with Section 1-09.11 and not resolved by  
50 nonbinding ADR processes, shall be resolved through litigation unless the parties mutually  
51 agree in writing to resolve the claim through binding arbitration.  
52

1 **1-09.13(3)A Administration of Arbitration**

3  
4 Revise the third paragraph to read:

7 decision of the arbitrator, and judgment upon the award rendered by the arbitrator  
8 may be entered in the Superior Court of the county in which the Contracting  
9 Agency's headquarters are located. The decision of the arbitrator and the specific  
10 basis for the decision shall be in writing. The arbitrator shall use the contract as a  
11 basis for decisions.

12  
13 **1-09.13(4) Claims in Excess of \$250,000**

14  
15 Section 1-09.13(4) is hereby deleted and replaced with the following:

16  
17 **CLAIMS RESOLUTION**

18 (\*\*\*\*\*)

19  
20 Any dispute arising from the contract shall be processed in accordance with Section 1-04.5 and  
21 Sections 1-09.11 through 1-09.13(1) of the Standard Specifications. The provisions of these  
22 sections must be complied with in full as a condition precedent to the Contractor's right to seek  
23 claims resolution through arbitration or litigation. The Contractor may file with the Engineer a  
24 request for binding arbitration; the Engineer's decision regarding that request shall be final and  
25 unappealable. Nothing in this paragraph affects or tolls the limitations period as set forth in  
26 Section 1-09.11(3) of the Standard Specifications. However, if the Contractor files a lawsuit  
27 raising any claim(s) arising from the contract, the parties shall, if the Engineer so directs, submit  
28 such claim(s) to binding arbitration, subject to the rights of any party thereto to file with the Lewis  
29 County Superior Court motions to dismiss or for summary judgment at any time. In any binding  
30 arbitration proceeding, the provisions of subparagraphs (a) and (b) shall apply.

31  
32 a) Unless the parties otherwise agree, all disputes subject to arbitration shall be heard in a  
33 single arbitration hearing, and then only after completion of the contract. The parties  
34 shall be bound by Ch. 7.04 RCW generally, and by the arbitration rules hereafter stated,  
35 and shall, for purposes of administration of the arbitration, comply where applicable with  
36 the 1994 Lewis County Superior Court Mandatory Arbitration Rules (LMAR) sections  
37 1.1(b), 1.3, 2.3, 3.1, 3.2(a) and (b), 5.1, 5.2 (except as referenced to MAR 5.2), 5.3, 6.1,  
38 6.2 (including the referenced MAR 6.2), and 8.6. There shall be one arbitrator, to be  
39 chosen by mutual agreement of the parties from the list provided by the Lewis County  
40 Superior Court Administrator. If the parties cannot agree on a person to serve as  
41 arbitrator, the matter shall be submitted for appointment of an arbitrator under LMAR  
42 2.3. The arbitrator shall determine the scope and extent of discovery, except that the  
43 Contractor shall provide and update the information required by Section 1-09.11(2) of  
44 the Standard Specifications. Additionally, each party shall file a statement of proof with  
45 the other party and the arbitrator at least 20 calendar days before the scheduled  
46 arbitration hearing. The statement of proof shall include:

- 47  
48 1. The name, business address and contact telephone number of each witness who  
49 will testify at the hearing.  
50  
51 2. For each witness to be offered as an expert, a statement of the subject matter and a  
52 statement of the facts, resource materials (not protected by privilege) and learned  
53 treatises upon which the expert is expected to testify and render an opinion(s),

1 synopsis of the basis for such opinion(s), and a resume of the expert detailing  
2 his/her qualifications as an expert and pursuant to rendering such opinion(s). A list  
3 of documents and other exhibits the party intends to offer in evidence at the  
4 arbitration hearing. Either party may request a copy of any document listed, and a  
5 copy or description of any other exhibit listed. The party receiving the request shall  
6 provide the copies or description within five (5) calendar days. The parties or  
7 arbitrator may subpoena parties in accordance with the Superior Court Mandatory  
8 Arbitration Rules (MAR) of Washington, Rule 4.3, and witness fees and costs shall  
9 be provided for under Rule 6.4, thereof. The arbitrator may permit a party to call a  
10 witness or offer a document or other exhibit not included in the statement of proof  
11 only upon a showing of good cause.

- 12  
13 b) The arbitration hearing shall be conducted at a location within Lewis County,  
14 Washington. The extent of application of the Washington Rules of Evidence shall be  
15 determined in the exercise of sound discretion of the arbitrator, except that such Rules  
16 should be liberally construed in order to promote justice. The parties should stipulate to  
17 the admission of evidence when there is no genuine issue as to its relevance or  
18 authenticity. The decision of the arbitrator and the specific grounds for the decision  
19 shall be in writing. The arbitrator shall use the contract as a basis for its decisions. The  
20 County and the Contractor agree to be bound by the decision of the arbitrator, subject  
21 to such remedies as are provided in Ch. 7.04 RCW. Judgment upon the award  
22 rendered by the arbitrator shall be entered as judgment before the presiding judge of  
23 the Superior Court for Lewis County. Each party shall bear its own costs in connection  
24 with the arbitration. Each party shall pay one-half of the arbitrator's fees and expenses.

**Washington State Department of Labor and Industries**  
**Policy Statement**  
**(Regarding the Production of "Standard" or "Non-standard" Items)**

Below is the department's (State L&I's) list of criteria to be used in determining whether a prefabricated item is "standard" or "non-standard". For items not appearing on WSDOT's predetermined list, these criteria shall be used by the Contractor (and the Contractor's subcontractors, agents to subcontractors, suppliers, manufacturers, and fabricators) to determine coverage under RCW 39.12. The production, in the State of Washington, of non-standard items is covered by RCW 39.12, and the production of standard items is not. The production of any item outside the State of Washington is not covered by RCW 39.12.

1. Is the item fabricated for a public works project? If not, it is not subject to RCW 39.12. If it is, go to question 2.
2. Is the item fabricated on the public works jobsite? If it is, the work is covered under RCW 39.12. If not, go to question 3.
3. Is the item fabricated in an assembly/fabrication plant set up for, and dedicated primarily to, the public works project? If it is, the work is covered by RCW 39.12. If not, go to question 4.
4. Does the item require any assembly, cutting, modification or other fabrication by the supplier? If not, the work is not covered by RCW 39.12. If yes, go to question 5.
5. Is the prefabricated item intended for the public works project typically an inventory item which could reasonably be sold on the general market? If not, the work is covered by RCW 39.12. If yes, go to question 6.
6. Does the specific prefabricated item, generally defined as standard, have any unusual characteristics such as shape, type of material, strength requirements, finish, etc? If yes, the work is covered under RCW 39.12.

Any firm with questions regarding the policy, WSDOT's Predetermined List, or for determinations of covered and non-covered workers shall be directed to State L&I at (360) 902-5330.

**WSDOT's  
Predetermined List for  
Suppliers - Manufactures - Fabricator**

Below is a list of potentially prefabricated items, originally furnished by WSDOT to Washington State Department of Labor and Industries, that may be considered non-standard and therefore covered by the prevailing wage law, RCW 39.12. Items marked with an X in the "YES" column should be considered to be non-standard and therefore covered by RCW 39.12. Items marked with an X in the "NO" column should be considered to be standard and therefore not covered. Of course, exceptions to this general list may occur, and in that case shall be evaluated according to the criteria described in State and L&I's policy statement.

Prefabricated items specifically produced for public works projects that are prefabricated in a county other than the county wherein the public works project is to be completed, the wage for the offsite prefabrication shall be the applicable prevailing wage for the county in which the actual prefabrication takes place.

It is the manufacturer of the prefabricated product to verify that the correct county wage rates are applied to work they perform.

See RCW [39.12.010](#)

(The definition of "locality" in RCW [39.12.010](#)(2) contains the phrase "wherein the physical work is being performed." The department interprets this phrase to mean the actual work site.

**Washington State Department of Labor and Industries**  
**Policy Statements**  
**(Regarding Production and Delivery of Gravel, Concrete, Asphalt, etc.)**

**WAC 296-127-018 Agency filings affecting this section**

**Coverage and exemptions of workers involved in the production and delivery of gravel, concrete, asphalt, or similar materials.**

(1) The materials covered under this section include but are not limited to: Sand, gravel, crushed rock, concrete, asphalt, or other similar materials.

(2) All workers, regardless of by whom employed, are subject to the provisions of chapter 39.12 RCW when they perform any or all of the following functions:

(a) They deliver or discharge any of the above-listed materials to a public works project site:

(i) At one or more point(s) directly upon the location where the material will be incorporated into the project; or

(ii) At multiple points at the project; or

(iii) Adjacent to the location and coordinated with the incorporation of those materials.

(b) They wait at or near a public works project site to perform any tasks subject to this section of the rule.

(c) They remove any materials from a public works construction site pursuant to contract requirements or specifications (e.g., excavated materials, materials from demolished structures, clean-up materials, etc.).

(d) They work in a materials production facility (e.g., batch plant, borrow pit, rock quarry, etc.) which is established for a public works project for the specific, but not necessarily exclusive, purpose of supplying materials for the project.

(e) They deliver concrete to a public works site regardless of the method of incorporation.

(f) They assist or participate in the incorporation of any materials into the public works project.

(3) All travel time that relates to the work covered under subsection (2) of this section requires the payment of prevailing wages. Travel time includes time spent waiting to load, loading, transporting, waiting to unload, and delivering materials. Travel time would include all time spent in travel in support of a public works project whether the vehicle is empty or full. For example, travel time spent returning to a supply source to obtain another load of material for use on a public works site or returning to the public works site to obtain another load of excavated material is time spent in travel that is subject to prevailing wage. Travel to a supply source, including travel from a public works site, to obtain materials for use on a private project would not be travel subject to the prevailing wage.

(4) Workers are not subject to the provisions of chapter 39.12 RCW when they deliver materials to a stockpile.

(a) A "stockpile" is defined as materials delivered to a pile located away from the site of incorporation such that the stockpiled materials must be physically moved from the stockpile and transported to another location on the project site in order to be incorporated into the project.

(b) A stockpile does not include any of the functions described in subsection (2)(a) through (f) of this section; nor does a stockpile include materials delivered or distributed to multiple locations upon the project site; nor does a stockpile include materials dumped at the place of incorporation, or adjacent to the location and coordinated with the incorporation.

(5) The applicable prevailing wage rate shall be determined by the locality in which the work is performed. Workers subject to subsection (2)(d) of this section, who produce such materials at an off-site facility shall be paid the applicable prevailing wage rates for the county in which the off-site facility is located. Workers subject to subsection (2) of this section, who deliver such materials to a public works project site shall be paid the applicable prevailing wage rates for the county in which the public works project is located.
