1 **INTRODUCTION**

2  
3 The following Special Provisions are made a part of this contract and supersede any conflicting  
4 provisions of the 2020 Standard Specifications for Road, Bridge, and Municipal Construction, and  
5 the foregoing Amendments to the Standard Specifications.

6  
7 The said Standard Specifications and Amendments thereto, the WSDOT Standard Plans, and  
8 WSDOT Construction Manual, together with the Special Provisions and the attached plans  
9 hereinafter contained, covering all work specified under this contract are incorporated and hereby  
10 made a part of this contract. The Special Provisions hereinafter contained shall supersede any  
11 conflicting provisions of the Standard Specifications and Amendments thereto, the WSDOT  
12 Standard Plans, and WSDOT Construction Manual.

13  
14 Several types of Special Provisions are included in this contract; General, Region, Bridges and  
15 Structures, and Project Specific. Special Provisions types are differentiated as follows:

17	(date)	General Special Provision
18	(*****)	Notes a revision to a General Special Provision
19		and also notes a Project Specific Special Provision.
20	(APWA GSP)	American Public Works Association General Special Provision

21  
22 **General Special Provisions** are similar to Standard Specifications in that they typically apply to  
23 many projects, usually in more than one Region. Usually, the only difference from one project to  
24 another is the inclusion of variable project data, inserted as a “fill-in”.

25  
26 **Project Specific Special Provisions** normally appear only in the contract for which they were  
27 developed.

28  
29 The following paragraph pertaining to the Standard Specifications shall obtain and be made a part  
30 of this contract:

31  
32 Wherever the word “State” or “Contracting Agency” is used it shall mean Lewis County; that  
33 wherever the words “Secretary (Secretary of Transportation)” are used they shall mean  
34 Lewis County Engineer; that wherever the words “State Treasurer” are used they shall  
35 mean Lewis County Treasurer; that wherever the words “State Auditor” are used they shall  
36 mean Lewis County Auditor; that wherever the words “Motor Vehicle Fund” are used they  
37 shall mean Lewis County Road Fund.

45 **1-03.1 Consideration of Bids**

46 *(\*\*\*\*\*)*

47 Section 1-03.1 is supplemented with the following:

48  
49 Bidders are notified that all bids are likely to be rejected if the lowest responsive bid  
50 received exceeds the Engineer's estimate by an unreasonable amount. In the event all  
51 bids are rejected for this reason, this project may be deferred for re-advertising for bids until  
52 a more competitive situation exists.

2 **1-03.4 Contract Bond**  
3 *(July 23, 2015 APWA GSP)*

4  
5 Delete the first paragraph and replace it with the following:

6  
7 The successful bidder shall provide executed payment and performance bond(s) for the full  
8 contract amount. The bond may be a combined payment and performance bond; or be  
9 separate payment and performance bonds. In the case of separate payment and performance  
10 bonds, each shall be for the full contract amount. The bond(s) shall:

- 11 1. Be on Contracting Agency-furnished form(s);
- 12 2. Be signed by an approved surety (or sureties) that:
  - 13 a. Is registered with the Washington State Insurance Commissioner, and
  - 14 b. Appears on the current Authorized Insurance List in the State of Washington published  
15 by the Office of the Insurance Commissioner,
- 16 3. Guarantee that the Contractor will perform and comply with all obligations, duties, and  
17 conditions under the Contract, including but not limited to the duty and obligation to  
18 indemnify, defend, and protect the Contracting Agency against all losses and claims related  
19 directly or indirectly from any failure:
  - 20 a. Of the Contractor (or any of the employees, subcontractors, or lower tier subcontractors  
21 of the Contractor) to faithfully perform and comply with all contract obligations,  
22 conditions, and duties, or
  - 23 b. Of the Contractor (or the subcontractors or lower tier subcontractors of the Contractor)  
24 to pay all laborers, mechanics, subcontractors, lower tier subcontractors, material  
25 person, or any other person who provides supplies or provisions for carrying out the  
26 work;
- 27 4. Be conditioned upon the payment of taxes, increases, and penalties incurred on the project  
28 under titles 50, 51, and 82 RCW; and
- 29 5. Be accompanied by a power of attorney for the Surety's officer empowered to sign the  
30 bond; and
- 31 6. Be signed by an officer of the Contractor empowered to sign official statements (sole  
32 proprietor or partner). If the Contractor is a corporation, the bond(s) must be signed by the  
33 president or vice president, unless accompanied by written proof of the authority of the  
34 individual signing the bond(s) to bind the corporation (i.e., corporate resolution, power of  
35 attorney, or a letter to such effect signed by the president or vice president).

36  
37 **1-05, CONTROL OF WORK**

38 **1-05.7 Removal of Defective and Unauthorized Work**  
39 *(October 1, 2005 APWA GSP)*

40  
41 Supplement this section with the following:

42  
43 If the Contractor fails to remedy defective or unauthorized work within the time specified in a  
44 written notice from the Engineer, or fails to perform any part of the work required by the  
45 Contract Documents, the Engineer may correct and remedy such work as may be identified in  
46 the written notice, with Contracting Agency forces or by such other means as the Contracting  
47 Agency may deem necessary.

48  
49 If the Contractor fails to comply with a written order to remedy what the Engineer determines to  
50 be an emergency situation, the Engineer may have the defective and unauthorized work  
51 corrected immediately, have the rejected work removed and replaced, or have work the  
52 Contractor refuses to perform completed by using Contracting Agency or other forces. An

1 emergency situation is any situation when, in the opinion of the Engineer, a delay in its remedy  
2 could be potentially unsafe, or might cause serious risk of loss or damage to the public.

3  
4 Direct or indirect costs incurred by the Contracting Agency attributable to correcting and  
5 remedying defective or unauthorized work, or work the Contractor failed or refused to perform,  
6 shall be paid by the Contractor. Payment will be deducted by the Engineer from monies due, or  
7 to become due, the Contractor. Such direct and indirect costs shall include in particular, but  
8 without limitation, compensation for additional professional services required, and costs for  
9 repair and replacement of work of others destroyed or damaged by correction, removal, or  
10 replacement of the Contractor's unauthorized work.

11  
12 No adjustment in contract time or compensation will be allowed because of the delay in the  
13 performance of the work attributable to the exercise of the Contracting Agency's rights provided  
14 by this Section.

15  
16 The rights exercised under the provisions of this section shall not diminish the Contracting  
17 Agency's right to pursue any other avenue for additional remedy or damages with respect to  
18 the Contractor's failure to perform the work as required.

22  
23 Delete the sixth and seventh paragraphs of this section.

24  
25 **1-05.15 Method of Serving Notices**

26 *(March 25, 2009 APWA GSP)*

27 Revise the second paragraph to read:

28  
29 All correspondence from the Contractor shall be directed to the Project Engineer. All  
30 correspondence from the Contractor constituting any notification, notice of protest, notice of  
31 dispute, or other correspondence constituting notification required to be furnished under the  
32 Contract, must be in paper format, hand delivered or sent via mail delivery service to the  
33 Project Engineer's office. Electronic copies such as e-mails or electronically delivered copies of  
34 correspondence will not constitute such notice and will not comply with the requirements of the  
35 Contract.

38  
39 **1-07.2 State Taxes**

40  
41 Delete this section, including its sub-sections, in its entirety and replace it with the following:

42  
43 **1-07.2 State Sales Tax**

44 *(June 27, 2011 APWA GSP)*

45  
46 The Washington State Department of Revenue has issued special rules on the State sales tax.  
47 Sections 1-07.2(1) through 1-07.2(3) are meant to clarify those rules. The Contractor should  
48 contact the Washington State Department of Revenue for answers to questions in this area.  
49 The Contracting Agency will not adjust its payment if the Contractor bases a bid on a  
50 misunderstood tax liability.  
51

1 The Contractor shall include all Contractor-paid taxes in the unit bid prices or other contract  
2 amounts. In some cases, however, state retail sales tax will not be included. Section 1-07.2(2)  
3 describes this exception.  
4

5 The Contracting Agency will pay the retained percentage (or release the Contract Bond if a  
6 FHWA-funded Project) only if the Contractor has obtained from the Washington State  
7 Department of Revenue a certificate showing that all contract-related taxes have been paid  
8 (RCW 60.28.051). The Contracting Agency may deduct from its payments to the Contractor  
9 any amount the Contractor may owe the Washington State Department of Revenue, whether  
10 the amount owed relates to this contract or not. Any amount so deducted will be paid into the  
11 proper State fund.  
12

### 13 **1-07.2(1) State Sales Tax — Rule 171**

14

15 WAC 458-20-171, and its related rules, apply to building, repairing, or improving streets, roads,  
16 etc., which are owned by a municipal corporation, or political subdivision of the state, or by the  
17 United States, and which are used primarily for foot or vehicular traffic. This includes storm or  
18 combined sewer systems within and included as a part of the street or road drainage system  
19 and power lines when such are part of the roadway lighting system. For work performed in  
20 such cases, the Contractor shall include Washington State Retail Sales Taxes in the various  
21 unit bid item prices, or other contract amounts, including those that the Contractor pays on the  
22 purchase of the materials, equipment, or supplies used or consumed in doing the work.  
23

### 24 **1-07.2(2) State Sales Tax — Rule 170**

25

26 WAC 458-20-170, and its related rules, apply to the constructing and repairing of new or  
27 existing buildings, or other structures, upon real property. This includes, but is not limited to,  
28 the construction of streets, roads, highways, etc., owned by the state of Washington; water  
29 mains and their appurtenances; sanitary sewers and sewage disposal systems unless such  
30 sewers and disposal systems are within, and a part of, a street or road drainage system;  
31 telephone, telegraph, electrical power distribution lines, or other conduits or lines in or above  
32 streets or roads, unless such power lines become a part of a street or road lighting system; and  
33 installing or attaching of any article of tangible personal property in or to real property, whether  
34 or not such personal property becomes a part of the realty by virtue of installation.  
35

36 For work performed in such cases, the Contractor shall collect from the Contracting Agency,  
37 retail sales tax on the full contract price. The Contracting Agency will automatically add this  
38 sales tax to each payment to the Contractor. For this reason, the Contractor shall not include  
39 the retail sales tax in the unit bid item prices, or in any other contract amount subject to Rule  
40 170, with the following exception.  
41

42 Exception: The Contracting Agency will not add in sales tax for a payment the Contractor or a  
43 subcontractor makes on the purchase or rental of tools, machinery, equipment, or consumable  
44 supplies not integrated into the project. Such sales taxes shall be included in the unit bid item  
45 prices or in any other contract amount.  
46

### 47 **1-07.2(3) Services**

48

49 The Contractor shall not collect retail sales tax from the Contracting Agency on any contract  
50 wholly for professional or other services (as defined in Washington State Department of  
51 Revenue Rules 138 and 244).  
52

## 53 **1-07.7 Load Limits**

54 Section 1-07.7 is supplemented with the following:  
55

1 (\*\*\*\*\*)

2 If the source of materials provided by the Contractor necessitates hauling over roads other  
3 than Lewis County roads, the Contractor shall, at the Contractor's expense, make all  
4 arrangements for the use of the haul routes.

5  
6 Any vehicle providing material paid for by the ton, on the project, will provide licensed tonnage  
7 for that vehicle.

## 8 9 **1-07.9 Wages**

### 10 11 **1-07.9(1) General**

12 (\*\*\*\*\*)

13 Section 1-07.9(1) is supplemented with the following:

14  
15 The State rates incorporated in this contract are applicable to all construction activities  
16 associated with this contract.

17  
18 (April 2, 2007)

### 19 **Application of Wage Rates For The Occupation Of Landscape Construction**

20  
21 State prevailing wage rates for public works contracts are included in this contract and show a  
22 separate listing for the occupation:

23  
24 Landscape Construction, which includes several different occupation descriptions such as:  
25 Irrigation and Landscape Plumbers, Irrigation and Landscape Power Equipment Operators,  
26 and Landscaping or Planting Laborers.

27  
28 In addition, federal wage rates that are included in this contract may also include occupation  
29 descriptions in Federal Occupational groups for work also specifically identified with landscaping  
30 such as:

31  
32 Laborers with the occupation description, Landscaping or Planting, or

33  
34 Power Equipment Operators with the occupation description, Mulch Seeding Operator.

35  
36 If Federal wage rates include one or more rates specified as applicable to landscaping work, then  
37 Federal wage rates for all occupation descriptions, specific or general, must be considered and  
38 compared with corresponding State wage rates. The higher wage rate, either State or Federal,  
39 becomes the minimum wage rate for the work performed in that occupation.

40  
41 Contractors are responsible for determining the appropriate crafts necessary to perform the  
42 contract work. If a classification considered necessary for performance of the work is missing from  
43 the Federal Wage Determination applicable to the contract, the Contractor shall initiate a request  
44 for approval of a proposed wage and benefit rate. The Contractor shall prepare and submit  
45 Standard Form 1444, Request for Authorization of Additional Classification and Wage Rate  
46 available at <http://www.wdol.gov/docs/sf1444.pdf>, and submit the completed form to the Project  
47 Engineer's office. The presence of a classification wage on the Washington State Prevailing Wage  
48 Rates For Public Works Contracts does not exempt the use of form 1444 for the purpose of  
49 determining a federal classification wage rate.

50  
51 (\*\*\*\*\*)

52 **Note: No landscape construction is anticipated in this contract. The above listed**  
53 **occupation is provided as an example. It is the Contractor's responsibility to determine the**  
54 **appropriate crafts and wage rates necessary to perform the contract work.**

19 These goals are applicable to each nonexempt Contractor's total on-site construction  
20 workforce, regardless of whether or not part of that workforce is performing work on a  
21 Federal, or federally assisted project, contract, or subcontract until further notice.  
22 Compliance with these goals and time tables is enforced by the Office of Federal Contract  
23 compliance Programs.

24  
25 The Contractor's compliance with the Executive Order and the regulations in 41 CFR Part  
26 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific  
27 affirmative action obligations required by the specifications set forth in 41 CFR 60-4.3(a),  
28 and its efforts to meet the goals. The hours of minority and female employment and  
29 training must be substantially uniform throughout the length of the contract, in each  
30 construction craft and in each trade, and the Contractor shall make a good faith effort  
31 to employ minorities and women evenly on each of its projects. The transfer of minority or  
32 female employees or trainees from Contractor to Contractor or from project to project for  
33 the sole purpose of meeting the Contractor's goal shall be a violation of the contract, the  
34 Executive Order and the regulations in 41 CFR Part 60-4. Compliance with the goals will  
35 be measured against the total work hours performed.

- 36  
37 3. The Contractor shall provide written notification to the Office of Federal Contract  
38 Compliance Programs (OFCCP) within 10 working days of award of any construction  
39 subcontract in excess of \$10,000 or more that are Federally funded, at any tier for  
40 construction work under the contract resulting from this solicitation. The notification shall  
41 list the name, address and telephone number of the Subcontractor; employer  
42 identification number of the Subcontractor; estimated dollar amount of the subcontract;  
43 estimated starting and completion dates of the subcontract; and the geographical area in  
44 which the contract is to be performed. The notification shall be sent to:

- 53  
54 4. As used in this Notice, and in the contract resulting from this solicitation, the Covered  
55 Area is as designated herein.

1  
2 Standard Federal Equal Employment Opportunity Construction Contract Specifications  
3 (Executive Order 11246)  
4

5 1. As used in these specifications:

- 6
- 7 a. Covered Area means the geographical area described in the solicitation from  
8 which this contract resulted;
- 9
- 10 b. Director means Director, Office of Federal Contract Compliance Programs,  
11 United States Department of Labor, or any person to whom the Director  
12 delegates authority;
- 13
- 14 c. Employer Identification Number means the Federal Social Security number used  
15 on the Employer's Quarterly Federal Tax Return, U. S. Treasury Department  
16 Form 941;
- 17
- 18 d. Minority includes:
- 19
- 20 (1) Black, a person having origins in any of the Black Racial Groups of  
21 Africa.
- 22
- 23 (2) Hispanic, a fluent Spanish speaking, Spanish surnamed person of  
24 Mexican, Puerto Rican, Cuban, Central American, South American, or  
25 other Spanish origin.
- 26
- 27 (3) Asian or Pacific Islander, a person having origins in any of the original  
28 peoples of the Pacific rim or the Pacific Islands, the Hawaiian Islands  
29 and Samoa.
- 30
- 31 (4) American Indian or Alaskan Native, a person having origins in any of  
32 the original peoples of North America, and who maintain cultural  
33 identification through tribal affiliation or community recognition.

34

35 2. Whenever the Contractor, or any Subcontractor at any tier, subcontracts a portion of the  
36 work involving any construction trade, it shall physically include in each subcontract in  
37 excess of \$10,000 the provisions of these specifications and the Notice which contains  
38 the applicable goals for minority and female participation and which is set forth in the  
39 solicitations from which this contract resulted.

40

41 3. If the Contractor is participating (pursuant to 41 CFR 60-4.5) in a Hometown Plan  
42 approved by the U.S. Department of Labor in the covered area either individually or  
43 through an association, its affirmative action obligations on all work in the Plan area  
44 (including goals and timetables) shall be in accordance with that Plan for those trades  
45 which have unions participating in the Plan. Contractors must be able to demonstrate  
46 their participation in and compliance with the provisions of any such Hometown Plan.  
47 Each Contractor or Subcontractor participating in an approved Plan is individually  
48 required to comply with its obligations under the EEO clause, and to make a good faith  
49 effort to achieve each goal under the Plan in each trade in which it has employees. The  
50 overall good faith performance by other Contractors or Subcontractors toward a goal in an  
51 approved Plan does not excuse any covered Contractor's or Subcontractor's failure to  
52 take good faith effort to achieve the Plan goals and timetables.

53

54 4. The Contractor shall implement the specific affirmative action standards provided in  
55 paragraphs 7a through 7p of this Special Provision. The goals set forth in the solicitation

1 from which this contract resulted are expressed as percentages of the total hours of  
2 employment and training of minority and female utilization the Contractor should  
3 reasonably be able to achieve in each construction trade in which it has employees in the  
4 covered area. Covered construction contractors performing construction work in  
5 geographical areas where they do not have a Federal or federally assisted construction  
6 contract shall apply the minority and female goals established for the geographical area  
7 where the work is being performed. The Contractor is expected to make substantially  
8 uniform progress in meeting its goals in each craft during the period specified.

- 9
- 10 5. Neither the provisions of any collective bargaining agreement, nor the failure by a union  
11 with whom the Contractor has a collective bargaining agreement, to refer either minorities  
12 or women shall excuse the Contractor's obligations under these specifications, Executive  
13 Order 11246, or the regulations promulgated pursuant thereto.
- 14
- 15 6. In order for the nonworking training hours of apprentices and trainees to be counted in  
16 meeting the goals, such apprentices and trainees must be employed by the Contractor  
17 during the training period, and the Contractor must have made a commitment to employ  
18 the apprentices and trainees at the completion of their training, subject to the availability  
19 of employment opportunities. Trainees must be trained pursuant to training programs  
20 approved by the U.S. Department of Labor.
- 21
- 22 7. The Contractor shall take specific affirmative actions to ensure equal employment  
23 opportunity. The evaluation of the Contractor's compliance with these specifications shall  
24 be based upon its effort to achieve maximum results from its action. The Contractor shall  
25 document these efforts fully, and shall implement affirmative action steps at least as  
26 extensive as the following:
- 27
- 28 a. Ensure and maintain a working environment free of harassment, intimidation,  
29 and coercion at all sites, and in all facilities at which the Contractor's employees  
30 are assigned to work. The Contractor, where possible, will assign two or more  
31 women to each construction project. The Contractor shall specifically ensure  
32 that all foremen, superintendents, and other on-site supervisory personnel are  
33 aware of and carry out the Contractor's obligation to maintain such a working  
34 environment, with specific attention to minority or female individuals working at  
35 such sites or in such facilities.
- 36
- 37 b. Establish and maintain a current list of minority and female recruitment sources,  
38 provide written notification to minority and female recruitment sources and to  
39 community organizations when the Contractor or its unions have employment  
40 opportunities available, and maintain a record of the organizations' responses.
- 41
- 42 c. Maintain a current file of the names, addresses and telephone numbers of each  
43 minority and female off-the-street applicant and minority or female referral from a  
44 union, a recruitment source or community organization and of what action was  
45 taken with respect to each such individual. If such individual was sent to the  
46 union hiring hall for referral and was not referred back to the Contractor by the  
47 union or, if referred, not employed by the Contractor, this shall be documented in  
48 the file with the reason therefor, along with whatever additional actions the  
49 Contractor may have taken.
- 50
- 51 d. Provide immediate written notification to the Director when the union or unions  
52 with which the Contractor has a collective bargaining agreement has not referred  
53 to the Contractor a minority person or woman sent by the Contractor, or when  
54 the Contractor has other information that the union referral process has impeded  
55 the Contractor's efforts to meet its obligations.

- e. Develop on-the-job training opportunity and/or participate in training programs for the area which expressly include minorities and women, including upgrading programs and apprenticeship and trainee programs relevant to the Contractor's employment needs, especially those programs funded or approved by the U.S. Department of Labor. The Contractor shall provide notice of these programs to the sources compiled under 7b above.
  - f. Disseminate the Contractor's EEO policy by providing notice of the policy to unions and training programs and requesting their cooperation in assisting the Contractor in meeting its EEO obligations; by including it in any policy manual and collective bargaining agreement; by publicizing it in the company newspaper, annual report, etc.; by specific review of the policy with all management personnel and with all minority and female employees at least once a year; and by posting the company EEO policy on bulletin boards accessible to all employees at each location where construction work is performed.
  - g. Review, at least annually, the company's EEO policy and affirmative action obligations under these specifications with all employees having any responsibility for hiring, assignment, layoff, termination or other employment decisions including specific review of these items with on-site supervisory personnel such as Superintendents, General Foremen, etc., prior to the initiation of construction work at any job site. A written record shall be made and maintained identifying the time and place of these meetings, persons attending, subject matter discussed, and disposition of the subject matter.
  - h. Disseminate the Contractor's EEO policy externally by including it in any advertising in the news media, specifically including minority and female news media, and providing written notification to and discussing the Contractor's EEO policy with other Contractors and Subcontractors with whom the Contractor does or anticipates doing business.
  - i. Direct its recruitment efforts, both oral and written to minority, female and community organizations, to schools with minority and female students and to minority and female recruitment and training organizations serving the Contractor's recruitment area and employment needs. Not later than one month prior to the date for the acceptance of applications for apprenticeship or other training by any recruitment source, the Contractor shall send written notification to organizations such as the above, describing the openings, screening procedures, and tests to be used in the selection process.
  - j. Encourage present minority and female employees to recruit other minority persons and women and where reasonable, provide after school, summer and vacation employment to minority and female youth both on the site and in other areas of a Contractor's work force.
  - k. Validate all tests and other selection requirements where there is an obligation to do so under 41 CFR Part 60-3.
  - l. Conduct, at least annually, an inventory and evaluation of all minority and female personnel for promotional opportunities and encourage these employees to seek or to prepare for, through appropriate training, etc., such opportunities.

- 1 m. Ensure that seniority practices, job classifications, work assignments and other  
2 personnel practices, do not have a discriminatory effect by continually monitoring  
3 all personnel and employment related activities to ensure that the EEO policy  
4 and the Contractor's obligations under these specifications are being carried out.  
5  
6 n. Ensure that all facilities and company activities are nonsegregated except that  
7 separate or single-user toilet and necessary changing facilities shall be provided  
8 to assure privacy between the sexes.  
9  
10 o. Document and maintain a record of all solicitations of offers for subcontracts  
11 from minority and female construction contractors and suppliers, including  
12 circulation of solicitations to minority and female contractor associations and  
13 other business associations.  
14  
15 p. Conduct a review, at least annually, of all supervisors' adherence to and  
16 performance under the Contractor's EEO policies and affirmative action  
17 obligations.  
18  
19 8. Contractors are encouraged to participate in voluntary associations which assist in  
20 fulfilling one or more of their affirmative action obligations (7a through 7p). The efforts of  
21 a contractor association, joint contractor-union, contractor-community, or other similar  
22 group of which the Contractor is a member and participant, may be asserted as fulfilling  
23 any one or more of the obligations under 7a through 7p of this Special Provision provided  
24 that the Contractor actively participates in the group, makes every effort to assure that the  
25 group has a positive impact on the employment of minorities and women in the industry,  
26 ensure that the concrete benefits of the program are reflected in the Contractor's minority  
27 and female work-force participation, makes a good faith effort to meet its individual goals  
28 and timetables, and can provide access to documentation which demonstrate the  
29 effectiveness of actions taken on behalf of the Contractor. The obligation to comply,  
30 however, is the Contractor's and failure of such a group to fulfill an obligation shall not be  
31 a defense for the Contractor's noncompliance.  
32  
33 9. A single goal for minorities and a separate single goal for women have been established.  
34 The Contractor, however, is required to provide equal employment opportunity and to take  
35 affirmative action for all minority groups, both male and female, and all women, both  
36 minority and non-minority. Consequently, the Contractor may be in violation of the  
37 Executive Order if a particular group is employed in substantially disparate manner (for  
38 example, even though the Contractor has achieved its goals for women generally, the  
39 Contractor may be in violation of the Executive Order if a specific minority group of  
40 women is underutilized).  
41  
42 10. The Contractor shall not use the goals and timetables or affirmative action standards to  
43 discriminate against any person because of race, color, religion, sex, or national origin.  
44  
45 11. The Contractor shall not enter into any subcontract with any person or firm debarred from  
46 Government contracts pursuant to Executive Order 11246.  
47  
48 12. The Contractor shall carry out such sanctions and penalties for violation of these  
49 specifications and of the Equal Opportunity Clause, including suspensions, terminations  
50 and cancellations of existing subcontracts as may be imposed or ordered pursuant to  
51 Executive Order 11246, as amended, and its implementing regulations by the Office of  
52 Federal Contract Compliance Programs. Any Contractor who fails to carry out such  
53 sanctions and penalties shall be in violation of these specifications and Executive Order  
54 11246, as amended.  
55

- 1 13. The Contractor, in fulfilling its obligations under these specifications, shall implement  
2 specific affirmative action steps, at least as extensive as those standards prescribed in  
3 paragraph 7 of this Special Provision, so as to achieve maximum results from its efforts to  
4 ensure equal employment opportunity. If the Contractor fails to comply with the  
5 requirements of the Executive Order, the implementing regulations, or these  
6 specifications, the Director shall proceed in accordance with 41 CFR 60-4.8.  
7
- 8 14. The Contractor shall designate a responsible official to monitor all employment related  
9 activity to ensure that the company EEO policy is being carried out, to submit reports  
10 relating to the provisions hereof as may be required by the government and to keep  
11 records. Records shall at least include, for each employee, their name, address,  
12 telephone numbers, construction trade, union affiliation if any, employee identification  
13 number when assigned, social security number, race, sex, status (e.g., mechanic,  
14 apprentice, trainee, helper, or laborer), dates of changes in status, hours worked per  
15 week in the indicated trade, rate of pay, and locations at which the work was performed.  
16 Records shall be maintained in an easily understandable and retrievable form; however,  
17 to the degree that existing records satisfy this requirement, the Contractors will not be  
18 required to maintain separate records.  
19
- 20 15. Nothing herein provided shall be construed as a limitation upon the application of other  
21 laws which establish different standards of compliance or upon the application of  
22 requirements for the hiring of local or other area residents (e.g., those under the Public  
23 Works Employment Act of 1977 and the Community Development Block Grant Program).

15

16 **1-07.18(1) General Requirements**

- 17
- 18 A. The Contractor shall procure and maintain the insurance described in all subsections of section  
19 1-07.18 of these Special Provisions, from insurers with a current A. M. Best rating of not less  
20 than A-: VII and licensed to do business in the State of Washington. The Contracting Agency  
21 reserves the right to approve or reject the insurance provided, based on the insurer's financial  
22 condition.  
23
  - 24 B. The Contractor shall keep this insurance in force without interruption from the commencement  
25 of the Contractor's Work through the term of the Contract and for thirty (30) days after the

29 subsequent renewals, shall be no later than the effective date of this Contract. The policy shall  
30 state that coverage is claims made, and state the retroactive date. Claims-made form  
31 coverage shall be maintained by the Contractor for a minimum of 36 months following the

36 Contracting Agency to assure financial responsibility for liability for services performed.  
37
  - 38 D. The Contractor's Automobile Liability, Commercial General Liability and Excess or Umbrella  
39 Liability insurance policies shall be primary and non-contributory insurance as respects the

45 notice of any policy cancellation, within two business days of their receipt of such notice.  
46
  - 47 G. The Contractor shall not begin work under the Contract until the required insurance has been  
48 obtained and approved by the Contracting Agency  
49
  - 50 H. Failure on the part of the Contractor to maintain the insurance as required shall constitute a  
51 material breach of contract, upon which the Contracting Agency may, after giving five business  
52 days' notice to the Contractor to correct the breach, immediately terminate the Contract or, at  
53 its discretion, procure or renew such insurance and pay any and all premiums in connection  
54 therewith, with any sums so expended to be repaid to the Contracting Agency on demand, or at

1 the sole discretion of the Contracting Agency, offset against funds due the Contractor from the  
2 Contracting Agency.

- 3  
4 I. All costs for insurance shall be incidental to and included in the unit or lump sum prices of the  
5 Contract and no additional payment will be made.

6  
7 **1-07.18(2) Additional Insured**

8 All insurance policies, with the exception of Workers Compensation, and of Professional Liability  
9 and Builder's Risk (if required by this Contract) shall name the following listed entities as additional  
10 insured(s) using the forms or endorsements required herein:

- 11 ■ the Contracting Agency and its officers, elected officials, employees, agents, and volunteers

12  
13 The above-listed entities shall be additional insured(s) for the full available limits of liability  
14 maintained by the Contractor, irrespective of whether such limits maintained by the Contractor are  
15 greater than those required by this Contract, and irrespective of whether the Certificate of  
16 Insurance provided by the Contractor pursuant to 1-07.18(4) describes limits lower than those  
17 maintained by the Contractor.

18  
19 For Commercial General Liability insurance coverage, the required additional insured  
20 endorsements shall be at least as broad as ISO forms CG 20 10 10 01 for ongoing operations and  
21 CG 20 37 10 01 for completed operations.

22  
23 **1-07.18(3) Subcontractors**

24 The Contractor shall cause each Subcontractor of every tier to provide insurance coverage that  
25 complies with all applicable requirements of the Contractor-provided insurance as set forth herein,  
26 except the Contractor shall have sole responsibility for determining the limits of coverage required  
27 to be obtained by Subcontractors.

28  
29 The Contractor shall ensure that all Subcontractors of every tier add all entities listed in 1-07.18(2)  
30 as additional insureds, and provide proof of such on the policies as required by that section as  
31 detailed in 1-07.18(2) using an endorsement as least as broad as ISO CG 20 10 10 01 for ongoing  
32 operations and CG 20 37 10 01 for completed operations.

33

37  
38 **1-07.18(4) Verification of Coverage**

39 The Contractor shall deliver to the Contracting Agency a Certificate(s) of Insurance and  
40 endorsements for each policy of insurance meeting the requirements set forth herein when the  
41 Contractor delivers the signed Contract for the work. Failure of Contracting Agency to demand  
42 such verification of coverage with these insurance requirements or failure of Contracting Agency to  
43 identify a deficiency from the insurance documentation provided shall not be construed as a waiver  
44 of Contractor's obligation to maintain such insurance.

45  
46 Verification of coverage shall include:

- 47 1. An ACORD certificate or a form determined by the Contracting Agency to be equivalent.  
48 2. Copies of all endorsements naming Contracting Agency and all other entities listed in  
49 1-07.18(2) as additional insured(s), showing the policy number. The Contractor may submit a  
50 copy of any blanket additional insured clause from its policies instead of a separate  
51 endorsement.  
52 3. Any other amendatory endorsements to show the coverage required herein.

1 4. A notation of coverage enhancements on the Certificate of Insurance shall not satisfy these  
2 requirements – actual endorsements must be submitted.

3  
4 Upon request by the Contracting Agency, the Contractor shall forward to the Contracting Agency a  
5 full and certified copy of the insurance policy(s). If Builders Risk insurance is required on this  
6 Project, a full and certified copy of that policy is required when the Contractor delivers the signed  
7 Contract for the work.

8  
9 **1-07.18(5) Coverages and Limits**

10 The insurance shall provide the minimum coverages and limits set forth below. Contractor's  
11 maintenance of insurance, its scope of coverage, and limits as required herein shall not be  
12 construed to limit the liability of the Contractor to the coverage provided by such insurance, or  
13 otherwise limit the Contracting Agency's recourse to any remedy available at law or in equity.

14  
15 All deductibles and self-insured retentions must be disclosed and are subject to approval by the  
16 Contracting Agency. The cost of any claim payments falling within the deductible or self-insured  
17 retention shall be the responsibility of the Contractor. In the event an additional insured incurs a  
18 liability subject to any policy's deductibles or self-insured retention, said deductibles or self-insured  
19 retention shall be the responsibility of the Contractor.

20  
21 **1-07.18(5)A Commercial General Liability**

22 Commercial General Liability insurance shall be written on coverage forms at least as broad as  
23 ISO occurrence form CG 00 01, including but not limited to liability arising from premises,

25 and advertising injury, and liability assumed under an insured contract. There shall be no  
26 exclusion for liability arising from explosion, collapse or underground property damage.

7 sequence differing from that which has been shown on the schedule, the Engineer may  
8 require the Contractor to delay unscheduled activities until they are included on a  
9 subsequent weekly activity schedule.

10  
11 Separately, and in addition to the weekly schedule, the Contractor shall submit weekly a

#### 18 19 **1-08.4 Notice to Proceed and Prosecution of Work** 20 *(July 23, 2015 APWA GSP)*

21  
22 Notice to Proceed will be given after the contract has been executed and the contract bond and  
23 evidence of insurance have been approved and filed by the Contracting Agency. The  
24 Contractor shall not commence with the work until the Notice to Proceed has been given by the  
25 Engineer. The Contractor shall commence construction activities on the project site within ten  
26 days of the Notice to Proceed Date, unless otherwise approved in writing. The Contractor shall  
27 diligently pursue the work to the physical completion date within the time specified in the  
28 contract. Voluntary shutdown or slowing of operations by the Contractor shall not relieve the  
29 Contractor of the responsibility to complete the work within the time(s) specified in the contract.  
30

### 31 **1-08.5 Time for Completion**

32 *(November 30, 2018 APWA GSP, Option B)*

33  
34 Revise the third and fourth paragraphs to read:

35  
36 Contract time shall begin on the first working day following the ~~\$\$\$14<sup>th</sup> \$\$~~ calendar day after the  
37 Notice to Proceed date. If the Contractor starts work on the project at an earlier date, then  
38 contract time shall begin on the first working day when onsite work begins.

39  
40 Each working day shall be charged to the contract as it occurs, until the contract work is  
41 physically complete. If substantial completion has been granted and all the authorized working  
42 days have been used, charging of working days will cease. Each week the Engineer will  
43 provide the Contractor a statement that shows the number of working days: (1) charged to the  
44 contract the week before; (2) specified for the physical completion of the contract; and (3)  
45 remaining for the physical completion of the contract. The statement will also show the  
46 nonworking days and any partial or whole day the Engineer declares as unworkable. Within 10  
47 calendar days after the date of each statement, the Contractor shall file a written protest of any  
48 alleged discrepancies in it. To be considered by the Engineer, the protest shall be in sufficient  
49 detail to enable the Engineer to ascertain the basis and amount of time disputed. By not filing  
50 such detailed protest in that period, the Contractor shall be deemed as having accepted the  
51 statement as correct. If the Contractor is approved to work 10 hours a day and 4 days a week  
52 (a 4-10 schedule) and the fifth day of the week in which a 4-10 shift is worked would ordinarily  
53 be charged as a working day, then the fifth day of that week will be charged as a working day  
54 whether or not the Contractor works on that day.

1  
2 Revise the sixth paragraph to read:

3  
4 The Engineer will give the Contractor written notice of the completion date of the contract after  
5 all the Contractor's obligations under the contract have been performed by the Contractor. The  
6 following events must occur before the Completion Date can be established:

- 7 1. The physical work on the project must be complete; and
- 8 2. The Contractor must furnish all documentation required by the contract and required by law,  
9 to allow the Contracting Agency to process final acceptance of the contract. The following  
10 documents must be received by the Project Engineer prior to establishing a completion  
11 date:
- 12 a. Certified Payrolls (per Section 1-07.9(5)).
  - 13 b. Material Acceptance Certification Documents
  - 14 c. Monthly Reports of Amounts Credited as DBE Participation, as required by the Contract  
15 Provisions.
  - 16 d. Final Contract Voucher Certification
  - 17 e. Copies of the approved "Affidavit of Prevailing Wages Paid" for the Contractor and all  
18 Subcontractors
  - 19 f. A copy of the Notice of Termination sent to the Washington State Department of  
20 Ecology (Ecology); the elapse of 30 calendar days from the date of receipt of the Notice  
21 of Termination by Ecology; and no rejection of the Notice of Termination by Ecology.  
22 This requirement will not apply if the Construction Stormwater General Permit is  
23 transferred back to the Contracting Agency in accordance with Section 8-01.3(16).
  - 24 g. Property owner releases per Section 1-07.24

25  
26 (\*\*\*\*\*)

27 This project shall be physically complete within \*\*\* 7 \*\*\* working days.

28  
29 Contract Time shall begin on \*\*\* June 11, 2020 \*\*\*.

30  
31 **1-09, MEASUREMENT AND PAYMENT**

32 **1-09.7 Mobilization**

33 Section 1-08.5 is supplemented with the following:

34  
35 (\*\*\*\*\*)

36 The Contractor shall notify the Contracting Agency of Staging area locations within five (5) days of  
37 award for review and approval.

38  
39 **1-09.9 Payments**

40 *(March 13, 2012 APWA GSP)*

41  
42 Delete the first four paragraphs and replace them with the following:

43  
44 The basis of payment will be the actual quantities of Work performed according to the Contract  
45 and as specified for payment.

46  
47 The Contractor shall submit a breakdown of the cost of lump sum bid items at the  
48 Preconstruction Conference, to enable the Project Engineer to determine the Work performed  
49 on a monthly basis. A breakdown is not required for lump sum items that include a basis for  
50 incremental payments as part of the respective Specification. Absent a lump sum breakdown,

1 the Project Engineer will make a determination based on information available. The Project  
2 Engineer's determination of the cost of work shall be final.

3  
4 Progress payments for completed work and material on hand will be based upon progress  
5 estimates prepared by the Engineer. A progress estimate cutoff date will be established at the  
6 preconstruction conference.

7  
8 The initial progress estimate will be made not later than 30 days after the Contractor  
9 commences the work, and successive progress estimates will be made every month thereafter  
10 until the Completion Date. Progress estimates made during progress of the work are tentative,  
11 and made only for the purpose of determining progress payments. The progress estimates are  
12 subject to change at any time prior to the calculation of the final payment.

13  
14 The value of the progress estimate will be the sum of the following:

- 15 1. Unit Price Items in the Bid Form — the approximate quantity of acceptable units of work  
16 completed multiplied by the unit price.
- 17 2. Lump Sum Items in the Bid Form — based on the approved Contractor's lump sum  
18 breakdown for that item, or absent such a breakdown, based on the Engineer's  
19 determination.
- 20 3. Materials on Hand — 100 percent of invoiced cost of material delivered to Job site or  
21 other storage area approved by the Engineer.
- 22 4. Change Orders — entitlement for approved extra cost or completed extra work as  
23 determined by the Engineer.  
24

25 Progress payments will be made in accordance with the progress estimate less:

- 26 1. Retainage per Section 1-09.9(1), on non FHWA-funded projects;
- 27 2. The amount of progress payments previously made; and
- 28 3. Funds withheld by the Contracting Agency for disbursement in accordance with the  
29 Contract Documents.  
30

31 Progress payments for work performed shall not be evidence of acceptable performance or an  
32 admission by the Contracting Agency that any work has been satisfactorily completed. The  
33 determination of payments under the contract will be final in accordance with Section 1-05.1.

#### 34 **1-09.9(1) Retainage**

35 Section 1-09.9(1) is supplemented with the following:

36  
37 **Retainage of 5 percent shall be as required by RCW 60.28.011.**  
38

#### 39 **1-09.11 Disputes and Claims**

##### 40 **1-09.11(3) Time Limitation and Jurisdiction**

41 *(November 30, 2018 APWA GSP)*

42  
43  
44  
45 Revise this section to read:

46  
47 For the convenience of the parties to the Contract it is mutually agreed by the parties that any  
48 claims or causes of action which the Contractor has against the Contracting Agency arising  
49 from the Contract shall be brought within 180 calendar days from the date of final acceptance  
50 (Section 1-05.12) of the Contract by the Contracting Agency; and it is further agreed that any  
51 such claims or causes of action shall be brought only in the Superior Court of the county where  
52 the Contracting Agency headquarters is located, provided that where an action is asserted

1 against a county, RCW 36.01.050 shall control venue and jurisdiction. The parties understand  
2 and agree that the Contractor's failure to bring suit within the time period provided, shall be a  
3 complete bar to any such claims or causes of action. It is further mutually agreed by the parties  
4 that when any claims or causes of action which the Contractor asserts against the Contracting  
5 Agency arising from the Contract are filed with the Contracting Agency or initiated in court, the  
6 Contractor shall permit the Contracting Agency to have timely access to any records deemed  
7 necessary by the Contracting Agency to assist in evaluating the claims or action.

## 8 9 **1-09.13 Claims Resolution**

### 10 11 **1-09.13(3) Claims \$250,000 or Less** 12 (October 1, 2005 APWA GSP)

13  
14 Delete this Section and replace it with the following:

15  
16 The Contractor and the Contracting Agency mutually agree that those claims that total  
17 \$250,000 or less, submitted in accordance with Section 1-09.11 and not resolved by  
18 nonbinding ADR processes, shall be resolved through litigation unless the parties mutually  
19 agree in writing to resolve the claim through binding arbitration.

### 20 21 **1-09.13(3)A Administration of Arbitration** 22 (November 30, 2018 APWA GSP)

23  
24 Revise the third paragraph to read:

25  
26 The Contracting Agency and the Contractor mutually agree to be bound by the decision of the  
27 arbitrator, and judgment upon the award rendered by the arbitrator may be entered in the  
28 Superior Court of the county in which the Contracting Agency's headquarters is located,  
29 provided that where claims subject to arbitration are asserted against a county, RCW  
30 36.01.050 shall control venue and jurisdiction of the Superior Court. The decision of the  
31 arbitrator and the specific basis for the decision shall be in writing. The arbitrator shall use the  
32 Contract as a basis for decisions.

### 33 34 **1-09.13(4) Claims in Excess of \$250,000**

35  
36 Section 1-09.13(4) is hereby deleted and replaced with the following:

## 37 **CLAIMS RESOLUTION**

38  
39 **(\*\*\*\*\*)**

40  
41 Any dispute arising from the contract shall be processed in accordance with Section 1-04.5  
42 and Sections 1-09.11 through 1-09.13(1) of the Standard Specifications. The provisions of  
43 these sections must be complied with in full as a condition precedent to the Contractor's right  
44 to seek claims resolution through arbitration or litigation. The Contractor may file with the  
45 Engineer a request for binding arbitration; the Engineer's decision regarding that request shall  
46 be final and unappealable. Nothing in this paragraph affects or tolls the limitations period as  
47 set forth in Section 1-09.11(3) of the Standard Specifications. However, if the Contractor files  
48 a lawsuit raising any claim(s) arising from the contract, the parties shall, if the Engineer so  
49 directs, submit such claim(s) to binding arbitration, subject to the rights of any party thereto to  
50 file with the Lewis County Superior Court motions to dismiss or for summary judgment at any  
51 time. In any binding arbitration proceeding, the provisions of subparagraphs (a) and (b) shall  
52 apply.

- 53  
54 a) Unless the parties otherwise agree, all disputes subject to arbitration shall be  
55 heard in a single arbitration hearing, and then only after completion of the

1 contract. The parties shall be bound by Ch. 7.04 RCW generally, and by the  
2 arbitration rules hereafter stated, and shall, for purposes of administration of the  
3 arbitration, comply where applicable with the 1994 Lewis County Superior Court  
4 Mandatory Arbitration Rules (LMAR) sections 1.1(b), 1.3, 2.3, 3.1, 3.2(a) and (b),  
5 5.1, 5.2 (except as referenced to MAR 5.2), 5.3, 6.1, 6.2 (including the  
6 referenced MAR 6.2), and 8.6. There shall be one arbitrator, to be chosen by  
7 mutual agreement of the parties from the list provided by the Lewis County  
8 Superior Court Administrator. If the parties cannot agree on a person to serve as  
9 arbitrator, the matter shall be submitted for appointment of an arbitrator under  
10 LMAR 2.3. The arbitrator shall determine the scope and extent of discovery,  
11 except that the Contractor shall provide and update the information required by  
12 Section 1-09.11(2) of the Standard Specifications. Additionally, each party shall  
13 file a statement of proof with the other party and the arbitrator at least 20  
14 calendar days before the scheduled arbitration hearing. The statement of proof  
15 shall include:

- 16  
17 1. The name, business address and contact telephone number of each  
18 witness who will testify at the hearing.
- 19  
20 2. For each witness to be offered as an expert, a statement of the  
21 subject matter and a statement of the facts, resource materials (not  
22 protected by privilege) and learned treatises upon which the expert  
23 is expected to testify and render an opinion(s), synopsis of the basis  
24 for such opinion(s), and a resume of the expert detailing his/her  
25 qualifications as an expert and pursuant to rendering such  
26 opinion(s). A list of documents and other exhibits the party intends  
27 to offer in evidence at the arbitration hearing. Either party may  
28 request a copy of any document listed, and a copy or description of  
29 any other exhibit listed. The party receiving the request shall  
30 provide the copies or description within five (5) calendar days. The  
31 parties or arbitrator may subpoena parties in accordance with the  
32 Superior Court Mandatory Arbitration Rules (MAR) of Washington,  
33 Rule 4.3, and witness fees and costs shall be provided for under  
34 Rule 6.4, thereof. The arbitrator may permit a party to call a witness  
35 or offer a document or other exhibit not included in the statement of  
36 proof only upon a showing of good cause.

- 37  
38 b) The arbitration hearing shall be conducted at a location within Lewis County,  
39 Washington. The extent of application of the Washington Rules of Evidence  
40 shall be determined in the exercise of sound discretion of the arbitrator, except  
41 that such Rules should be liberally construed in order to promote justice. The  
42 parties should stipulate to the admission of evidence when there is no genuine  
43 issue as to its relevance or authenticity. The decision of the arbitrator and the  
44 specific grounds for the decision shall be in writing. The arbitrator shall use the  
45 contract as a basis for its decisions. The County and the Contractor agree to be  
46 bound by the decision of the arbitrator, subject to such remedies as are provided  
47 in Ch. 7.04 RCW. Judgment upon the award rendered by the arbitrator shall be  
48 entered as judgment before the presiding judge of the Superior Court for Lewis  
49 County. Each party shall bear its own costs in connection with the arbitration.  
50 Each party shall pay one-half of the arbitrator's fees and expenses.

53 **DIVISION 3**  
54 **PRODUCTION FROM QUARRY AND PIT SITES AND STOCKPILING**  
55

1 **3-01, PRODUCTION FROM QUARRY AND PIT SITES**

2 **3-01.4 Contractor Furnished Material Sources**

3  
4 **3-01.4(1) Acquisition and Development**

5 Section 3-01.4(1) is supplemented with the following:

6  
7 **(\*\*\*\*\*)**

8 No source has been provided for any materials necessary for the construction of this project.

9  
10 **DIVISION 4**  
11 **BASES**

12 **4-06 ASPHALT TREATED BASE**

13 **(\*\*\*\*\*)**

14 Section 4.06 is supplemented with the following:

15  
16 **PULVERIZED RECYCLED CEMENT TREATED BASE**

17 **4-06.1 Description**

18 **(\*\*\*\*\*)**

19 Section 4-06.1 is replaced with the following:

20  
21 The pulverization, shaping, spreading and mixing process shall incorporate a cement-stabilized  
22 base. The cement base course shall consist of pulverized asphalt, existing base material, selected  
23 excavation material, imported crushed surfacing top and base course as required, Portland  
24 cement, and water uniformly mixed, graded, shaped, compacted, finished, and cured in  
25 accordance with these specifications. It shall conform to the lines, grades, thickness, and typical  
26 cross section shown on the plans.

27  
28 The existing roadway and base course sections shall be pulverized to the depth shown in the  
29 Proposal for the total width and length, or as directed by the Engineer. The roadway will then be  
30 shaped and compacted by Lewis County forces. Following the establishment of the subgrade  
31 profile, dry Portland cement shall be spread on the roadway and shall then be mixed to the depth  
32 as shown in the Proposal, or as directed by the Engineer.

33  
34 **4-06.2 Materials**

35 **(\*\*\*\*\*)**

36 Section 4-06.2 is supplemented with the following:

37  
38 **4-06.2(1) Portland Cement**

39  
40 Portland cement shall be Type II and shall be provided in accordance with Section 9-01 of the  
41 Standard Specifications.

42  
43 **4-06.2(2) Water**

44  
45 Water shall be free from substances deleterious to the hardening of the soil-cement. The  
46 Contractor shall make arrangements to provide water and water trucks needed to satisfy water  
47 requirements for the mixing process of this contract.

48  
49 **4-06.2(3) Soil Material**

1 Soil material shall consist of the pulverized asphalt and base existing in the area to be paved,  
2 of selected excavation material, Crushed Surfacing or a combination of these materials  
3 proportioned as directed, prior to the application of cement.  
4

#### 5 **4-06.3 Construction Requirements**

6 (\*\*\*\*\*)

7 Section 4-06.3 is supplemented with the following:  
8

#### 9 **Equipment**

##### 10 **Reclaimer/Stabilizer**

11 Soil-cement shall be constructed with a BOMAG MPH-100 or CMI - RS 500 or equal equipped with  
12 an appropriate water distribution system as approved by the Engineer. The equipment shall be  
13 able to meet the following criteria:  
14

- 15 Two directional processing, both up and down cutting;
- 16 Cross slope control;
- 17 Maintain constant mixing depth;
- 18 Process a minimum of 8 feet wide per pass;
- 19 Have proper fittings to connect directly to a water truck;
- 20 Provide a fully computerized, automatic water additive system, which shall include a  
21 totalizer, so that the amount of water used during any given period can be read directly, and  
22 a gauge to indicate the instantaneous application rate during the mixing operation.  
23 Capable of pushing or pulling the water tankers during the mixing process.  
24  
25

26 The Contractor shall submit equipment for approval 5 days prior to use. The Engineer will make  
27 the decision as to the whether the equipment is equal to the above. The decision of the Engineer  
28 will be final.  
29

##### 30 **Water Trucks**

31 Water trucks to be used in the mixing process shall have a minimum 3,000 gallon capacity. The  
32 water trucks shall be properly fitted so as to connect directly to the Reclaimer/Stabilizer in order for  
33 the water to be distributed directly into the mixing chamber. Two water trucks will be required to  
34 ensure the mixing operation is a continuous operation and not disrupted.  
35  
36

##### 37 **Cement Distributor**

38 The equipment used to spread the cement shall be self-propelled or truck mounted. It may be used  
39 for the application of, but not limited to; lime, fly ash or Portland cement at a metered rate. The  
40 equipment shall have a weighing scale, a foot per minute gauge, and a RPM vane feeder in order  
41 to provide control of the cement distribution process and meet the following criteria:  
42  
43

- 44 • Onboard weigh scales that provide a weight readout of the material in the product  
45 hopper.
- 46 • Dual augers or other means to supply product to the distribution chamber in a  
47 continuous and even flow.
- 48 • The capability of spreading at least an 8 foot wide spread of product, to a maximum  
49 of 100 lbs. of product per square yard in one pass.
- 50 • A distribution chamber with the capability to allow spreads in 2 foot increments.

- 52 • A skirt and dust recovery system to control airborne dust during the application  
53 process.  
54  
55

1 The Engineer may accept other quantity and quality control equipment after review and approval.

2  
3 (\*\*\*\*\*)

4 **4-06.3(A) Construction Methods**

5  
6 (\*\*\*\*\*)

7 **4-06.3(A)1 Preparation**

8  
9 The pulverizing operation and the establishment of the subgrade profile and grade by shall be  
10 completed prior to the mixing operation. The pulverized material shall be shaped and rolled to  
11 allow the roadway to be open to traffic. The material shall be compacted and shaped to the  
12 grades and cross sections shown on the plans or as staked in the field by the Engineer prior to  
13 mixing. Any imported material required to achieve the lines and grades as staked by the  
14 Engineer shall meet the specifications for Crushed Surfacing Top Course. The Contractor  
15 shall coordinate with Lewis County forces to achieve this specification.

16  
17 The subgrade shall be firm and able to support without displacement the construction  
18 equipment and the compaction hereinafter specified. Soft or yielding subgrade shall be made  
19 stable before construction proceeds. Unsuitable soil material shall be removed and replaced  
20 with acceptable material, as directed by the Engineer. The Contractor shall coordinate with  
21 Lewis County forces to achieve this specification.

22  
23 (\*\*\*\*\*)

24 **4-06.3(A)2 Pulverization**

25  
26 Before cement is applied the soil material shall be so pulverized that at the completion of  
27 moist-mixing, 100% by dry weight passes a 2-in. sieve, exclusive of gravel or stone retained  
28 on these sieves. Roads shall be pulverized and water may be required to be applied thru the  
29 pulverizing machine to reach optimum moisture content, as directed by the Engineer. Water  
30 will be considered incidental to the bid items that are involved.

31  
32 Additional pavement pulverization may be required as directed by the Engineer if the initial  
33 0.50 feet of pulverization does not penetrate thru the existing HMA or the existing material as  
34 determined by the Engineer needs additional pulverization.

35  
36 **The Contractor shall be aware that there will be an approximately two day delay**  
37 **between the pulverization and mixing process to allow County Forces to place rock.**  
38 **This standby time for the Contractor shall be considered incidental to the Project.**

39  
40 (\*\*\*\*\*)

41 **4-06.3(A)3 Cement Spreading and Mixing**

42  
43 Mixing of the soil material, cement, and water shall be accomplished by the mixed-in-place  
44 method. Application of cement will be at a uniform rate established by the Engineer. The  
45 estimated pounds of cement per square yards (Lbs./S.Y.) shall be as shown in the proposal  
46 for each location. The ratio of cement may be adjusted at the discretion of the Engineer.

47  
48 No cement shall be spread or soil-cement mixture mixed when the soil or subgrade is frozen  
49 or when the air temperature is less than 40 degrees in the shade.

50  
51 The percentage of moisture in the soil material, at the time of cement application, shall be the  
52 amount that assures a uniform and intimate mixture of pulverized asphalt and soil material and  
53 cement during mixing operations. It shall not exceed the specified optimum moisture content  
54 for the soil-cement mixture.

1 The operations of cement spreading, water application, mixing, hauling, shaping, compacting,  
2 and finishing shall be continuous and completed in daylight. The total elapsed time between  
3 the addition of water to the soil-cement mixture and the completion of finishing shall not  
4 exceed 2 hours. The Contractor shall coordinate with Lewis County forces to achieve this  
5 specification.

6  
7 Any soil-and-cement mixture that has not been compacted and finished shall not remain  
8 undisturbed for more than 30 minutes.

9  
10 (\*\*\*\*\*)

#### 11 **4-06.3(A)4 Mixed-in-place Method**

12  
13 The water shall be applied through the mixing machine. The pulverized asphalt, the soil  
14 material and cement shall be mixed sufficiently to prevent cement balls from forming when  
15 water is added. Mixing shall be continued until the mixture is uniform in color and at the  
16 required moisture content throughout. Operations of cement spreading, water application,  
17 mixing, and grading mixed material shall result in a uniform soil, cement, and water mixture for  
18 the full depth and width.

19  
20 The cement shall be uniformly distributed and mixed with the pulverized material and any  
21 existing underlying material or imported material as specified. The mixing operation may be  
22 accomplished by using either the same machine used for the pulverizing operation or a  
23 separate machine designed for in-place continuous mixing as approved by the Engineer.  
24 Regardless of which method is used, a control system capable of metering or measuring the  
25 cement application rate to a pound per square yard shall be used.

26  
27 The application rate of the cement will be expressed in terms of pounds per square yard  
28 based on the dry unit weight of the unmixed in-place material as determined by the Engineer.

29  
30 The mixing operation shall be completed in continuous full width segments that shall not  
31 exceed 800 feet in length so not to disrupt the traveling public unless otherwise approved by  
32 the Engineer. Each segment must be processed and compacted by sunset of each day and  
33 opened to traffic.

34  
35 Additional mixing depth may be required as directed by the Engineer. No additional payment  
36 will be made for mixing of material until depths exceed the planned mixing depth for that  
37 roadway.

38  
39 (\*\*\*\*\*)

#### 40 **4-06.3(A)5 Shaping and Compaction**

41  
42 The Contractor shall coordinate with County forces to assure the mixing operation does not  
43 get too far ahead of the shaping and compaction effort so that County forces can meet the  
44 following specification:

45  
46 At the start of compaction, the percentage of moisture in the mixture shall not be below or  
47 more than two percentage points above the specified optimum moisture content, and shall be  
48 less than that quantity which will cause the soil-cement mixture to become unstable during  
49 compaction and finishing. The optimum moisture and maximum density shall be determined  
50 by the County in the field at the time compaction begins by utilizing the Maximum Density  
51 Curve for the cement-soil material, as determined by the WSDOT Materials Laboratory  
52 according to procedures of the standard Nuclear Densometer Test.

53  
54 Prior to compaction, the mixed material shall be shaped by a road grader, a mechanical  
55 spreader or paver, or grade trimmer of approved type. The soil cement shall be compacted by

1 a vibratory roller to at least 95% of the theoretical maximum density.

2  
3 (\*\*\*\*\*)

4 **4-06.3(A)8 Construction Joints**

5  
6 At the beginning of each day's construction a straight transverse construction joint shall be  
7 formed by cutting back into the completed work.

8  
9 Soil-cement for large, wide areas shall be built in a series of parallel lanes of convenient length  
10 and width meeting approval of the Engineer. Straight longitudinal joints shall be formed at  
11 edge of each day's construction by cutting back into completed work to form a true vertical  
12 face free of loose or shattered material.

13  
14 Special attention shall be given to joint construction to ensure a vertical joint, adequately  
15 mixed material, and compaction up against the joint. On mixed-in-place construction using  
16 transverse shaft mixers, a longitudinal joint constructed adjacent to partially hardened soil-  
17 cement built the preceding day may be formed by cutting back into the previously constructed  
18 area during mixing operations. Guide stakes, or a control method as approved by the  
19 Engineer, shall be set by the Contractor for cement spreading and mixing.

20  
21 (\*\*\*\*\*)

22 **4-06.3(A)9 Traffic**

23  
24 Completed portions of soil-cement may be opened immediately to traffic and to construction  
25 equipment provided the soil-cement has hardened sufficiently to prevent marring or distorting  
26 of the surface by equipment or traffic and the curing material is not impaired.

27  
28 (\*\*\*\*\*)

29 **4-06.3(A)10 Maintenance**

30  
31 The Contractor shall be required to maintain the soil-cement in good condition until all work  
32 has been completed and accepted, and the course of Crushed Surfacing Top Course has  
33 been applied. Maintenance shall include immediate repairs of any defects that may occur.  
34 This work shall be done by the Contractor at his own expense and repeated as often as may  
35 be necessary to keep the area continuously intact. Any decomposition of the cement treated  
36 base due to inadequate mixing of cement and base material will be replaced for the full depth  
37 of treatment at the Contractor's expense. No cracking totaling 0.5 feet in length and 0.03 feet  
38 in width (or wider) per square foot will be accepted and will be replaced for the full depth of  
39 treatment at the Contractor's expense. Longitudinal grooving, such as, but not limited to the  
40 tire tracks deeper than 0.03 feet will be replaced for the full depth at the Contractor's expense.

41  
42 **4-06.4 Measurement**

43 Section 4-06.4 is supplemented with the following:

44  
45 (\*\*\*\*\*)

46 Pavement Pulverization work (described in Section 4-06.1 and the Proposal) will be measured  
47 per Square Yard, once along the centerline, at the specified width and depth. The provisions  
48 of Section 1-04.6, Variation of Estimated Quantities shall not apply to these bid items. Water  
49 shall be considered incidental to the various items involved.

50  
51 Mixing Base Stabilization work (described in Section 4-06.1 and the Proposal) will be  
52 measured per Square Yard, once along the centerline, at the specified width and depth. The  
53 provisions of Section 1-04.6, Variation of Estimated Quantities shall not apply to these bid  
54 items. Water shall be considered incidental to the various items involved.

1 Additional Pavement Pulverization (Per Each Additional 0.1' Depth) shall be measured per  
2 Square Yard for each additional 0.10 feet of depth beyond the initial depth and will include  
3 additional depth to penetrate existing HMA. The provisions of Section 1-04.6, Variation of  
4 Estimated Quantities shall not apply to this bid item.

5  
6 Additional Mixing Base Stabilization (Per Each Additional 0.1' Depth) shall be measured per  
7 Square Yard for each additional 0.10 feet of depth beyond the planned mixing depth for that  
8 roadway. See Contract Proposal. The provisions of Section 1-04.6, Variation of Estimated  
9 Quantities shall not apply to this bid item.

10  
11 Water Trucks used and operated in the Cement Treated Base mixing operation shall be  
12 considered incidental to Mixing Base Stabilization operation. Water will be considered  
13 incidental to the various bid items involved.

14  
15 Cement (Type II) will be measured by the Ton for actual quantities used. The provisions of  
16 Section 1-04.6, Variation of Estimated Quantities shall not apply to this bid item.

**Washington State Department of Labor and Industries**  
**Policy Statement**  
**(Regarding the Production of "Standard" or "Non-standard" Items)**

Below is the department's (State L&I's) list of criteria to be used in determining whether a prefabricated item is "standard" or "non-standard". For items not appearing on WSDOT's predetermined list, these criteria shall be used by the Contractor (and the Contractor's subcontractors, agents to subcontractors, suppliers, manufacturers, and fabricators) to determine coverage under RCW 39.12. The production, in the State of Washington, of non-standard items is covered by RCW 39.12, and the production of standard items is not. The production of any item outside the State of Washington is not covered by RCW 39.12.

1. Is the item fabricated for a public works project? If not, it is not subject to RCW 39.12. If it is, go to question 2.
2. Is the item fabricated on the public works jobsite? If it is, the work is covered under RCW 39.12. If not, go to question 3.
3. Is the item fabricated in an assembly/fabrication plant set up for, and dedicated primarily to, the public works project? If it is, the work is covered by RCW 39.12. If not, go to question 4.
4. Does the item require any assembly, cutting, modification or other fabrication by the supplier? If not, the work is not covered by RCW 39.12. If yes, go to question 5.
5. Is the prefabricated item intended for the public works project typically an inventory item which could reasonably be sold on the general market? If not, the work is covered by RCW 39.12. If yes, go to question 6.
6. Does the specific prefabricated item, generally defined as standard, have any unusual characteristics such as shape, type of material, strength requirements, finish, etc? If yes, the work is covered under RCW 39.12.

Any firm with questions regarding the policy, WSDOT's Predetermined List, or for determinations of covered and non-covered workers shall be directed to State L&I at (360) 902-5330.

**WSDOT's  
Predetermined List for  
Suppliers - Manufactures - Fabricator**

Below is a list of potentially prefabricated items, originally furnished by WSDOT to Washington State Department of Labor and Industries, that may be considered non-standard and therefore covered by the prevailing wage law, RCW 39.12. Items marked with an X in the "NO" column should be considered to be standard and therefore not covered. Of course, exceptions to this general list may occur, and in that case shall be evaluated according to the criteria described in State and L&I's policy statement.

Principal and Surety bind themselves, their executors, administrators, legal representatives, successors and assigns, jointly and severally, firmly by these presents. Said contract (hereinafter referred to as "the Contract") is for the 2020 Countywide Base Stabilization Project, and is made a part hereof by this reference. The Contract includes the original agreement as well as all documents attached thereto or made a part thereof and amendments, change orders, and any other document modifying, adding to or deleting from said Contract any portion thereof.

(The Contract as defined herein includes the aforesaid agreement together with all of the Contract documents including addenda, exhibits, attachments, modifications, alterations, and additions thereto, deletions therefrom, amendments and any other document or provision attached to or incorporated into the Contract)

**THE CONDITION OF THIS OBLIGATION** is such that if Contractor shall promptly and faithfully perform the Contract, then this obligation shall be null and void; otherwise it shall remain in full force and effect.

**THE PARTIES FURTHER ACKNOWLEDGE & AGREE AS FOLLOWS:**

- (1) Surety hereby consents to, and waives notice of, any alteration, change order, or other modification of the Contract and any extension of time made by County, except that any single or cumulative change order amounting to more than twenty-five percent (25%) of the penal sum of this bond shall require Surety's written consent.
- (2) Surety recognizes that the Contract includes provisions for additions, deletions, and modifications to the work or Contract Time and the amounts payable to Contractor. Subject to the limitations contained in paragraph (1) above, no such change or any combination thereof, shall void or impair Surety's obligation hereunder.
- (3) Surety is subject to the provisions contained in Section 1-03.4, "Contract Bond," of the Washington State Department of Transportation (WSDOT) Standard Specifications for Road, Bridge, and Municipal Construction. And such provisions are incorporated by reference. A copy may be viewed at WSDOT's website [www.wsdot.wa.gov/fasc/EngineeringPublications/Manuals/](http://www.wsdot.wa.gov/fasc/EngineeringPublications/Manuals/).
- (4) Whenever County has declared Contractor to be in default and County has given Surety written notice of such declaration, Surety shall promptly (in no event more than thirty [30] days following receipt of such notice), specify, in written notice to County, which of the following actions Surety intends to take to remedy such default, and thereafter shall:
  - (a) Remedy the default within fifteen (15) days after its notice to County, as stated in such notice; or
  - (b) Assume within fifteen (15) days following its notice to County, full responsibility for the completion of the Contract in accordance with all of its provisions, as stated in such notice, and become entitled to payment of the balance of the Contract sum as provided in the Contract; or
  - (c) Pay County upon completion of the Contract, in cash, the cost of completion together with all other reasonable costs and expenses incurred by County as a result of Contractor's default, including but not limited to those incurred by County to mitigate its losses, which may include but are not limited to attorneys' fees and the cost of efforts to complete the work prior to Surety's exercising any option available to it under this Bond; or
  - (d) Obtain a bid or bids for completing the Contract in accordance with its terms and conditions, and upon a determination by County and Surety jointly of the lowest responsible bidder, arrange for one or more agreements between such bidder and County, and make available as work progresses (even though there is a default or a succession of defaults under such agreement(s) for completion arranged for under this paragraph) sufficient funds to pay the cost of completion less the balance of the Contract price, but not exceeding, including other costs and damages for which Surety may be liable hereunder, the penal sum of this Bond. The term "balance of the Contract price," as used in this paragraph, shall mean the total amount payable by County to Contractor under the Contract, less the amount properly paid by County to Contractor.

(5) If County commences suit and obtains judgment against Surety for recovery hereunder, then Surety, in addition to such judgment, shall pay all costs and attorneys' fees incurred by County in enforcement of County's rights hereunder. The venue for any action arising out of or in connection with this bond shall be in Lewis County, Washington.
