26 developed.

27
28 The following paragraph pertaining to the Standard Specifications shall obtain and be made a part of
29 this contract:

34 County Treasurer; that wherever the words “State Auditor” are used they shall mean Lewis

10 Contracting Agency reserves the right to request further documentation as needed from the low
11 Bidder and documentation from other Bidders as well to assess Bidder responsibility and
12 compliance with all bidder responsibility criteria. The Contracting Agency also reserves the right

16

17 Direct or indirect costs incurred by the Contracting Agency attributable to correcting and remedying
18 defective or unauthorized work, or work the Contractor failed or refused to perform, shall be paid
19 by the Contractor. Payment will be deducted by the Engineer from monies due, or to become due,

21 compensation for additional professional services required, and costs for repair and replacement
22 of work of others destroyed or damaged by correction, removal, or replacement of the Contractor's

32 responsible for the conditions of the project site, including safety for all persons and property in the
33 performance of the work. This requirement shall apply continuously, and not be limited to normal

39 Delete this section, including its sub-sections, in its entirety and replace it with the following:
40

41 **1-07.2 State Sales Tax** 42 *(June 27, 2011 APWA GSP)*

43 The Washington State Department of Revenue has issued special rules on the State sales tax.
44 Sections 1-07.2(1) through 1-07.2(3) are meant to clarify those rules. The Contractor should
45 contact the Washington State Department of Revenue for answers to questions in this area. The
46 Contracting Agency will not adjust its payment if the Contractor bases a bid on a misunderstood
47 tax liability.
48
49
50
51

1 The Contractor shall include all Contractor-paid taxes in the unit bid prices or other contract
2 amounts. In some cases, however, state retail sales tax will not be included. Section 1-07.2(2)
3 describes this exception.

4
5 The Contracting Agency will pay the retained percentage (or release the Contract Bond if a
6 FHWA-funded Project) only if the Contractor has obtained from the Washington State Department
7 of Revenue a certificate showing that all contract-related taxes have been paid (RCW 60.28.051).
8 The Contracting Agency may deduct from its payments to the Contractor any amount the
9 Contractor may owe the Washington State Department of Revenue, whether the amount owed
10 relates to this contract or not. Any amount so deducted will be paid into the proper State fund.

11 **1-07.2(1) State Sales Tax — Rule 171**

12
13
14 WAC 458-20-171, and its related rules, apply to building, repairing, or improving streets, roads,
15 etc., which are owned by a municipal corporation, or political subdivision of the state, or by the
16 United States, and which are used primarily for foot or vehicular traffic. This includes storm or
17 combined sewer systems within and included as a part of the street or road drainage system and
18 power lines when such are part of the roadway lighting system. For work performed in such
19 cases, the Contractor shall include Washington State Retail Sales Taxes in the various unit bid
20 item prices, or other contract amounts, including those that the Contractor pays on the purchase of
21 the materials, equipment, or supplies used or consumed in doing the work.

22 **1-07.2(2) State Sales Tax — Rule 170**

23
24
25 WAC 458-20-170, and its related rules, apply to the constructing and repairing of new or existing
26 buildings, or other structures, upon real property. This includes, but is not limited to, the
27 construction of streets, roads, highways, etc., owned by the state of Washington; water mains and
28 their appurtenances; sanitary sewers and sewage disposal systems unless such sewers and
29 disposal systems are within, and a part of, a street or road drainage system; telephone, telegraph,
30 electrical power distribution lines, or other conduits or lines in or above streets or roads, unless
31 such power lines become a part of a street or road lighting system; and installing or attaching of
32 any article of tangible personal property in or to real property, whether or not such personal
33 property becomes a part of the realty by virtue of installation.

34
35 For work performed in such cases, the Contractor shall collect from the Contracting Agency, retail
36 sales tax on the full contract price. The Contracting Agency will automatically add this sales tax to
37 each payment to the Contractor. For this reason, the Contractor shall not include the retail sales
38 tax in the unit bid item prices, or in any other contract amount subject to Rule 170, with the
39 following exception.

40
41 Exception: The Contracting Agency will not add in sales tax for a payment the Contractor or a

43 supplies not integrated into the project. Such sales taxes shall be included in the unit bid item
44 prices or in any other contract amount.

45 **1-07.2(3) Services**

46

48 The Contractor shall not collect retail sales tax from the Contracting Agency on any contract
49 wholly for professional or other services (as defined in Washington State Department of Revenue
50 Rules 138 and 244).

- 30 3. If the Contractor is participating (pursuant to 41 CFR 60-4.5) in a Hometown Plan approved
- 31 by the U.S. Department of Labor in the covered area either individually or through an
- 32 association, its affirmative action obligations on all work in the Plan area (including goals and
- 33 timetables) shall be in accordance with that Plan for those trades which have unions
- 34 participating in the Plan. Contractors must be able to demonstrate their participation in and
- 35 compliance with the provisions of any such Hometown Plan. Each Contractor or
- 36 Subcontractor participating in an approved Plan is individually required to comply with its
- 37 obligations under the EEO clause, and to make a good faith effort to achieve each goal under
- 38 the Plan in each trade in which it has employees. The overall good faith performance by other
- 39 Contractors or Subcontractors toward a goal in an approved Plan does not excuse any covered
- 40 Contractor's or Subcontractor's failure to take good faith effort to achieve the Plan goals and
- 41 timetables.
- 42
- 43 4. The Contractor shall implement the specific affirmative action standards provided in
- 44 paragraphs 7a through 7p of this Special Provision. The goals set forth in the solicitation from
- 45 which this contract resulted are expressed as percentages of the total hours of employment
- 46 and training of minority and female utilization the Contractor should reasonably be able to
- 47 achieve in each construction trade in which it has employees in the covered area. Covered
- 48 construction contractors performing construction work in geographical areas where they do
- 49 not have a Federal or federally assisted construction contract shall apply the minority and
- 50 female goals established for the geographical area where the work is being performed. The
- 51 Contractor is expected to make substantially uniform progress in meeting its goals in each
- 52 craft during the period specified.

- 1
- 2 5. Neither the provisions of any collective bargaining agreement, nor the failure by a union with
- 3 whom the Contractor has a collective bargaining agreement, to refer either minorities or
- 4 women shall excuse the Contractor's obligations under these specifications, Executive Order
- 5 11246, or the regulations promulgated pursuant thereto.
- 6
- 7 6. In order for the nonworking training hours of apprentices and trainees to be counted in meeting
- 8 the goals, such apprentices and trainees must be employed by the Contractor during the
- 9 training period, and the Contractor must have made a commitment to employ the apprentices
- 10 and trainees at the completion of their training, subject to the availability of employment
- 11 opportunities. Trainees must be trained pursuant to training programs approved by the U.S.
- 12 Department of Labor.
- 13
- 14 7. The Contractor shall take specific affirmative actions to ensure equal employment opportunity.
- 15 The evaluation of the Contractor's compliance with these specifications shall be based upon
- 16 its effort to achieve maximum results from its action. The Contractor shall document these
- 17 efforts fully, and shall implement affirmative action steps at least as extensive as the following:
- 18
- 19 a. Ensure and maintain a working environment free of harassment, intimidation, and
- 20 coercion at all sites, and in all facilities at which the Contractor's employees are
- 21 assigned to work. The Contractor, where possible, will assign two or more women
- 22 to each construction project. The Contractor shall specifically ensure that all
- 23 foremen, superintendents, and other on-site supervisory personnel are aware of and
- 24 carry out the Contractor's obligation to maintain such a working environment, with
- 25 specific attention to minority or female individuals working at such sites or in such
- 26 facilities.
- 27
- 28 b. Establish and maintain a current list of minority and female recruitment sources,
- 29 provide written notification to minority and female recruitment sources and to
- 30 community organizations when the Contractor or its unions have employment
- 31 opportunities available, and maintain a record of the organizations' responses.
- 32
- 33 c. Maintain a current file of the names, addresses and telephone numbers of each
- 34 minority and female off-the-street applicant and minority or female referral from a
- 35 union, a recruitment source or community organization and of what action was taken
- 36 with respect to each such individual. If such individual was sent to the union hiring
- 37 hall for referral and was not referred back to the Contractor by the union or, if referred,
- 38 not employed by the Contractor, this shall be documented in the file with the reason
- 39 therefor, along with whatever additional actions the Contractor may have taken.
- 40
- 41 d. Provide immediate written notification to the Director when the union or unions with
- 42 which the Contractor has a collective bargaining agreement has not referred to the
- 43 Contractor a minority person or woman sent by the Contractor, or when the
- 44 Contractor has other information that the union referral process has impeded the
- 45 Contractor's efforts to meet its obligations.
- 46
- 47 e. Develop on-the-job training opportunity and/or participate in training programs for the
- 48 area which expressly include minorities and women, including upgrading programs
- 49 and apprenticeship and trainee programs relevant to the Contractor's employment
- 50 needs, especially those programs funded or approved by the U.S. Department of
- 51 Labor. The Contractor shall provide notice of these programs to the sources
- 52 compiled under 7b above.

- f. Disseminate the Contractor's EEO policy by providing notice of the policy to unions and training programs and requesting their cooperation in assisting the Contractor in meeting its EEO obligations; by including it in any policy manual and collective bargaining agreement; by publicizing it in the company newspaper, annual report, etc.; by specific review of the policy with all management personnel and with all minority and female employees at least once a year; and by posting the company EEO policy on bulletin boards accessible to all employees at each location where construction work is performed.
 - g. Review, at least annually, the company's EEO policy and affirmative action obligations under these specifications with all employees having any responsibility for hiring, assignment, layoff, termination or other employment decisions including specific review of these items with on-site supervisory personnel such as Superintendents, General Foremen, etc., prior to the initiation of construction work at any job site. A written record shall be made and maintained identifying the time and place of these meetings, persons attending, subject matter discussed, and disposition of the subject matter.
 - h. Disseminate the Contractor's EEO policy externally by including it in any advertising in the news media, specifically including minority and female news media, and providing written notification to and discussing the Contractor's EEO policy with other Contractors and Subcontractors with whom the Contractor does or anticipates doing business.
 - i. Direct its recruitment efforts, both oral and written to minority, female and community organizations, to schools with minority and female students and to minority and female recruitment and training organizations serving the Contractor's recruitment area and employment needs. Not later than one month prior to the date for the acceptance of applications for apprenticeship or other training by any recruitment source, the Contractor shall send written notification to organizations such as the above, describing the openings, screening procedures, and tests to be used in the selection process.
 - j. Encourage present minority and female employees to recruit other minority persons and women and where reasonable, provide after school, summer and vacation employment to minority and female youth both on the site and in other areas of a Contractor's work force.
 - k. Validate all tests and other selection requirements where there is an obligation to do so under 41 CFR Part 60-3.
 - l. Conduct, at least annually, an inventory and evaluation of all minority and female personnel for promotional opportunities and encourage these employees to seek or to prepare for, through appropriate training, etc., such opportunities.
 - m. Ensure that seniority practices, job classifications, work assignments and other personnel practices, do not have a discriminatory effect by continually monitoring all personnel and employment related activities to ensure that the EEO policy and the Contractor's obligations under these specifications are being carried out.

- 1 n. Ensure that all facilities and company activities are nonsegregated except that
2 separate or single-user toilet and necessary changing facilities shall be provided to
3 assure privacy between the sexes.
4
5 o. Document and maintain a record of all solicitations of offers for subcontracts from
6 minority and female construction contractors and suppliers, including circulation of
7 solicitations to minority and female contractor associations and other business
8 associations.
9
10 p. Conduct a review, at least annually, of all supervisors' adherence to and performance
11 under the Contractor's EEO policies and affirmative action obligations.
12

- 13 8. Contractors are encouraged to participate in voluntary associations which assist in fulfilling
14 one or more of their affirmative action obligations (7a through 7p). The efforts of a contractor
15 association, joint contractor-union, contractor-community, or other similar group of which the
16 Contractor is a member and participant, may be asserted as fulfilling any one or more of the
17 obligations under 7a through 7p of this Special Provision provided that the Contractor actively
18 participates in the group, makes every effort to assure that the group has a positive impact on
19 the employment of minorities and women in the industry, ensure that the concrete benefits of
20 the program are reflected in the Contractor's minority and female work-force participation,
21 makes a good faith effort to meet its individual goals and timetables, and can provide access
22 to documentation which demonstrate the effectiveness of actions taken on behalf of the
23 Contractor. The obligation to comply, however, is the Contractor's and failure of such a group
24 to fulfill an obligation shall not be a defense for the Contractor's noncompliance.
25
26 9. A single goal for minorities and a separate single goal for women have been established. The
27 Contractor, however, is required to provide equal employment opportunity and to take
28 affirmative action for all minority groups, both male and female, and all women, both minority
29 and non-minority. Consequently, the Contractor may be in violation of the Executive Order if
30 a particular group is employed in substantially disparate manner (for example, even though
31 the Contractor has achieved its goals for women generally, the Contractor may be in violation
32 of the Executive Order if a specific minority group of women is underutilized).
33
34 10. The Contractor shall not use the goals and timetables or affirmative action standards to
35 discriminate against any person because of race, color, religion, sex, or national origin.
36
37 11. The Contractor shall not enter into any subcontract with any person or firm debarred from
38 Government contracts pursuant to Executive Order 11246.
39
40 12. The Contractor shall carry out such sanctions and penalties for violation of these specifications
41 and of the Equal Opportunity Clause, including suspensions, terminations and cancellations
42 of existing subcontracts as may be imposed or ordered pursuant to Executive Order 11246,
43 as amended, and its implementing regulations by the Office of Federal Contract Compliance
44 Programs. Any Contractor who fails to carry out such sanctions and penalties shall be in
45 violation of these specifications and Executive Order 11246, as amended.
46
47 13. The Contractor, in fulfilling its obligations under these specifications, shall implement specific
48 affirmative action steps, at least as extensive as those standards prescribed in paragraph 7 of
49 this Special Provision, so as to achieve maximum results from its efforts to ensure equal
50 employment opportunity. If the Contractor fails to comply with the requirements of the
51 Executive Order, the implementing regulations, or these specifications, the Director shall
52 proceed in accordance with 41 CFR 60-4.8.

14. The Contractor shall designate a responsible official to monitor all employment related activity to ensure that the company EEO policy is being carried out, to submit reports relating to the provisions hereof as may be required by the government and to keep records. Records shall at least include, for each employee, their name, address, telephone numbers, construction trade, union affiliation if any, employee identification number when assigned, social security number, race, sex, status (e.g., mechanic, apprentice, trainee, helper, or laborer), dates of changes in status, hours worked per week in the indicated trade, rate of pay, and locations at which the work was performed. Records shall be maintained in an easily understandable and retrievable form; however, to the degree that existing records satisfy this requirement, the Contractors will not be required to maintain separate records.
 15. Nothing herein provided shall be construed as a limitation upon the application of other laws which establish different standards of compliance or upon the application of requirements for the hiring of local or other area residents (e.g., those under the Public Works Employment Act of 1977 and the Community Development Block Grant Program).

8
9 Delete this section in its entirety, and replace it with the following:

10
11 **1-07.18 Insurance**

12 *(January 4, 2016 APWA GSP)*

13
14 **1-07.18(1) General Requirements**

- 15 A. The Contractor shall procure and maintain the insurance described in all subsections of section 1-
16 07.18 of these Special Provisions, from insurers with a current A. M. Best rating of not less than A-
17 : VII and licensed to do business in the State of Washington. The Contracting Agency reserves
18 the right to approve or reject the insurance provided, based on the insurer's financial condition.
- 19
20 B. The Contractor shall keep this insurance in force without interruption from the commencement of
21 the Contractor's Work through the term of the Contract and for thirty (30) days after the Physical
22 Completion date, unless otherwise indicated below.
- 23
24 C. If any insurance policy is written on a claims made form, its retroactive date, and that of all
25 subsequent renewals, shall be no later than the effective date of this Contract. The policy shall
26 state that coverage is claims made, and state the retroactive date. Claims-made form coverage
27 shall be maintained by the Contractor for a minimum of 36 months following the Completion Date
28 or earlier termination of this Contract, and the Contractor shall annually provide the Contracting
29 Agency with proof of renewal. If renewal of the claims made form of coverage becomes
30 unavailable, or economically prohibitive, the Contractor shall purchase an extended reporting
31 period ("tail") or execute another form of guarantee acceptable to the Contracting Agency to
32 assure financial responsibility for liability for services performed.
- 33
34 D. The Contractor's Automobile Liability, Commercial General Liability and Excess or Umbrella Liability
35 insurance policies shall be primary and non-contributory insurance as respects the Contracting
36 Agency's insurance, self-insurance, or self-insured pool coverage. Any insurance, self-insurance,
37 or self-insured pool coverage maintained by the Contracting Agency shall be excess of the
38 Contractor's insurance and shall not contribute with it.
- 39
40 E. The Contractor shall provide the Contracting Agency and all additional insureds with written notice
41 of any policy cancellation, within two business days of their receipt of such notice.
- 42
43 G. The Contractor shall not begin work under the Contract until the required insurance has been
44 obtained and approved by the Contracting Agency
- 45
46 H. Failure on the part of the Contractor to maintain the insurance as required shall constitute a
47 material breach of contract, upon which the Contracting Agency may, after giving five business
48 days' notice to the Contractor to correct the breach, immediately terminate the Contract or, at its
49 discretion, procure or renew such insurance and pay any and all premiums in connection
50 therewith, with any sums so expended to be repaid to the Contracting Agency on demand, or at
51 the sole discretion of the Contracting Agency, offset against funds due the Contractor from the
52 Contracting Agency.

1 I. All costs for insurance shall be incidental to and included in the unit or lump sum prices of the
2 Contract and no additional payment will be made.

3
4 **1-07.18(2) Additional Insured**

5 All insurance policies, with the exception of Workers Compensation, and of Professional Liability and
6 Builder's Risk (if required by this Contract) shall name the following listed entities as additional
7 insured(s) using the forms or endorsements required herein:

- 8
9 ▪ the Contracting Agency and its officers, elected officials, employees, agents, and volunteers

10
11 The above-listed entities shall be additional insured(s) for the full available limits of liability maintained
12 by the Contractor, irrespective of whether such limits maintained by the Contractor are greater than
13 those required by this Contract, and irrespective of whether the Certificate of Insurance provided by
14 the Contractor pursuant to 1-07.18(4) describes limits lower than those maintained by the Contractor.

15
16 For Commercial General Liability insurance coverage, the required additional insured endorsements
17 shall be at least as broad as ISO forms CG 20 10 10 01 for ongoing operations and CG 20 37 10 01
18 for completed operations.

19
20 **1-07.18(3) Subcontractors**

21 The Contractor shall cause each Subcontractor of every tier to provide insurance coverage that
22 complies with all applicable requirements of the Contractor-provided insurance as set forth herein,
23 except the Contractor shall have sole responsibility for determining the limits of coverage required to be
24 obtained by Subcontractors.

25
26 The Contractor shall ensure that all Subcontractors of every tier add all entities listed in 1-07.18(2) as
27 additional insureds, and provide proof of such on the policies as required by that section as detailed in
28 1-07.18(2) using an endorsement as least as broad as ISO CG 20 10 10 01 for ongoing operations
29 and CG 20 37 10 01 for completed operations.

30
31 Upon request by the Contracting Agency, the Contractor shall forward to the Contracting Agency
32 evidence of insurance and copies of the additional insured endorsements of each Subcontractor of
33 every tier as required in 1-07.18(4) Verification of Coverage.

34
35 **1-07.18(4) Verification of Coverage**

36 The Contractor shall deliver to the Contracting Agency a Certificate(s) of Insurance and endorsements
37 for each policy of insurance meeting the requirements set forth herein when the Contractor delivers
38 the signed Contract for the work. Failure of Contracting Agency to demand such verification of
39 coverage with these insurance requirements or failure of Contracting Agency to identify a deficiency
40 from the insurance documentation provided shall not be construed as a waiver of Contractor's
41 obligation to maintain such insurance.

42
43 Verification of coverage shall include:

- 44 1. An ACORD certificate or a form determined by the Contracting Agency to be equivalent.
45 2. Copies of all endorsements naming Contracting Agency and all other entities listed in 1-07.18(2)
46 as additional insured(s), showing the policy number. The Contractor may submit a copy of any
47 blanket additional insured clause from its policies instead of a separate endorsement.
48 3. Any other amendatory endorsements to show the coverage required herein.
49 4. A notation of coverage enhancements on the Certificate of Insurance shall not satisfy these
50 requirements – actual endorsements must be submitted.

1 Upon request by the Contracting Agency, the Contractor shall forward to the Contracting Agency a full
2 and certified copy of the insurance policy(s). If Builders Risk insurance is required on this Project, a
3 full and certified copy of that policy is required when the Contractor delivers the signed Contract for
4 the work.

5
6 **1-07.18(5) Coverages and Limits**

7 The insurance shall provide the minimum coverages and limits set forth below. Contractor's
8 maintenance of insurance, its scope of coverage, and limits as required herein shall not be construed
9 to limit the liability of the Contractor to the coverage provided by such insurance, or otherwise limit the
10 Contracting Agency's recourse to any remedy available at law or in equity.

11
12 All deductibles and self-insured retentions must be disclosed and are subject to approval by the
13 Contracting Agency. The cost of any claim payments falling within the deductible or self-insured
14 retention shall be the responsibility of the Contractor. In the event an additional insured incurs a
15 liability subject to any policy's deductibles or self-insured retention, said deductibles or self-insured
16 retention shall be the responsibility of the Contractor.

17
18 **1-07.18(5)A Commercial General Liability**

19 Commercial General Liability insurance shall be written on coverage forms at least as broad as ISO
20 occurrence form CG 00 01, including but not limited to liability arising from premises, operations, stop
21 gap liability, independent contractors, products-completed operations, personal and advertising injury,
22 and liability assumed under an insured contract. There shall be no exclusion for liability arising from
23 explosion, collapse or underground property damage.

24
25 The Commercial General Liability insurance shall be endorsed to provide a per project general
26 aggregate limit, using ISO form CG 25 03 05 09 or an equivalent endorsement.

27
28 Contractor shall maintain Commercial General Liability Insurance arising out of the Contractor's
29 completed operations for at least three years following Substantial Completion of the Work.

30
31 Such policy must provide the following minimum limits:

32	\$1,000,000	Each Occurrence
33	\$2,000,000	General Aggregate
34	\$2,000,000	Products & Completed Operations Aggregate
35	\$1,000,000	Personal & Advertising Injury each offence
36	\$1,000,000	Stop Gap / Employers' Liability each accident

37
38 **1-07.18(5)B Automobile Liability**

39 Automobile Liability shall cover owned, non-owned, hired, and leased vehicles; and shall be written on
40 a coverage form at least as broad as ISO form CA 00 01. If the work involves the transport of
41 pollutants, the automobile liability policy shall include MCS 90 and CA 99 48 endorsements.

42
43 Such policy must provide the following minimum limit:

44	\$1,000,000	Combined single limit each accident
----	-------------	-------------------------------------

45
46 **1-07.18(5)C Workers' Compensation**

4 Add the following new section:

5
6 **1-08.0(1) Preconstruction Conference**

7 (October 10, 2008 APWA GSP)

8
9 Prior to the Contractor beginning the work, a preconstruction conference will be held between the
10 Contractor, the Engineer and such other interested parties as may be invited. The purpose of the
11 preconstruction conference will be:

- 12 1. To review the initial progress schedule;
- 13 2. To establish a working understanding among the various parties associated or affected by the
14 work;
- 15 3. To establish and review procedures for progress payment, notifications, approvals, submittals,
16 etc.;
- 17 4. To establish normal working hours for the work;
- 18 5. To review safety standards and traffic control; and
- 19 6. To discuss such other related items as may be pertinent to the work.

20
21 The Contractor shall prepare and submit at the preconstruction conference the following:

- 22 1. A breakdown of all lump sum items;
- 23 2. A preliminary schedule of working drawing submittals; and
- 24 3. A list of material sources for approval if applicable.

25
26 Add the following new section:

27
28 **1-08.0(2) Hours of Work**

29 (December 8, 2014 APWA GSP)

30
31 Except in the case of emergency or unless otherwise approved by the Engineer, the normal
32 working hours for the Contract shall be any consecutive 8-hour period between 7:00 a.m. and 6:00
33 p.m. Monday through Friday, exclusive of a lunch break. If the Contractor desires different than
34 the normal working hours stated above, the request must be submitted in writing prior to the
35 preconstruction conference, subject to the provisions below. The working hours for the Contract
36 shall be established at or prior to the preconstruction conference.

37
38 All working hours and days are also subject to local permit and ordinance conditions (such as
39 noise ordinances).

40
41 If the Contractor wishes to deviate from the established working hours, the Contractor shall submit
42 a written request to the Engineer for consideration. This request shall state what hours are being
43 requested, and why. Requests shall be submitted for review no later than 3 working days prior to
44 the day(s) the Contractor is requesting to change the hours.

45
46 If the Contracting Agency approves such a deviation, such approval may be subject to certain other
47 conditions, which will be detailed in writing. For example:

- 48 1. On non-Federal aid projects, requiring the Contractor to reimburse the Contracting Agency
49 for the costs in excess of straight-time costs for Contracting Agency representatives who
50 worked during such times. (The Engineer may require designated representatives to be

1 present during the work. Representatives who may be deemed necessary by the Engineer
2 include, but are not limited to: survey crews; personnel from the Contracting Agency's
3 material testing lab; inspectors; and other Contracting Agency employees or third party
4 consultants when, in the opinion of the Engineer, such work necessitates their presence.)

- 5 2. Considering the work performed on Saturdays, Sundays, and holidays as working days
6 with regard to the contract time.
- 7 3. Considering multiple work shifts as multiple working days with respect to contract time
8 even though the multiple shifts occur in a single 24-hour period.
- 9 4. If a 4-10 work schedule is requested and approved the non working day for the week will
10 be charged as a working day.
- 11 5. If Davis Bacon wage rates apply to this Contract, all requirements must be met and
12 recorded properly on certified payroll

13 **1-08.1 Subcontracting**

14 *(December 19, 2019 APWA GSP, Option A)*

15
16
17 Prior to any subcontractor or lower tier subcontractor beginning work, the Contractor shall submit to
18 the Engineer a certification (WSDOT Form 420-004) that a written agreement between the Contractor
19 and the subcontractor or between the subcontractor and any lower tier subcontractor has been
20 executed. This certification shall also guarantee that these subcontract agreements include all the
21 documents required by the Special Provision Federal Agency Inspection.

22
23 A Subcontractor or lower tier Subcontractor will not be permitted to perform any work under the
24 contract until the following documents have been completed and submitted to the Engineer:

- 25 1. Request to Sublet Work (WSDOT Form 421-012), and
- 26 2. Contractor and Subcontractor or Lower Tier Subcontractor Certification for Federal-aid Projects
27 (WSDOT Form 420-004).

28
29
30 The Contractor shall submit to the Engineer a completed Monthly Retainage Report (WSDOT Form
31 272-065) within 15 calendar days after receipt of every monthly progress payment until every
32 Subcontractor and lower tier Subcontractor's retainage has been released.

33
34 The ninth paragraph, beginning with "On all projects, ..." is revised to read:

35
36 The Contractor shall certify to the actual amount received from the Contracting Agency and amounts
37 paid to all firms that were used as Subcontractors, lower tier subcontractors, manufacturers, regular
38 dealers, or service providers on the Contract. This includes all Disadvantaged, Minority, Small,
39 Veteran or Women's Business Enterprise firms. This Certification shall be submitted to the Engineer
40 on a monthly basis each month between Execution of the Contract and Physical Completion of the
41 Contract using the application available at: <https://wsdot.diversitycompliance.com>. A monthly report
42 shall be submitted for every month between Execution of the Contract and Physical Completion
43 regardless of whether payments were made or work occurred.

44 **1-08.3(2)A Type A Progress Schedule**

45 *(March 13, 2012 APWA GSP)*

46
47 Revise this section to read:

48
49
50 The Contractor shall submit \$\$ 3 \$\$ copies of a Type A Progress Schedule no later than at the
51 preconstruction conference, or some other mutually agreed upon submittal time. The schedule

1 may be a critical path method (CPM) schedule, bar chart, or other standard schedule format.
2 Regardless of which format used, the schedule shall identify the critical path. The Engineer will
3 evaluate the Type A Progress Schedule and approve or return the schedule for corrections within
4 15 calendar days of receiving the submittal.

5
6 **Contractor's Weekly Activities**

7 (*****)

8
9 The Contractor shall submit a weekly schedule to the Engineer (prior to the beginning of each work
10 week). The schedule shall indicate the Contractor's proposed activities for the forthcoming week
11 along with the hours of work. This will permit the Engineer to more effectively provide the contract
12 engineering and inspection for the Contractor's operations.

13
14 The written weekly activity schedule shall be submitted to the Engineer or a designated assistant
15 before the end of the last shift on the next to the last working day of the week preceding the
16 indicated activities, or other mutually agreeable time.

17
18 If the Contractor proceeds with work not indicated on the weekly activity schedule, or in a sequence
19 differing from that which has been shown on the schedule, the Engineer may require the Contractor
20 to delay unscheduled activities until they are included on a subsequent weekly activity schedule.

21
22 Separately, and in addition to the weekly schedule, the Contractor shall submit weekly a summary
23 of project activities to the Engineer. The summary of activities shall include a report of the nature
24 and progress of each of the major activities that were advanced on the project within the previous
25 week.

26
27 It shall be sufficiently detailed that a composite history of the project develops. The locations and
28 approximate quantity guardrail and traffic control work shall be reported. Unusual activity, and
29 conditions or events that may affect the course of the project shall also be reported.

30
31 **1-08.4 Prosecution of Work**

32
33 Delete this section and replace it with the following:

34
35 **1-08.4 Notice to Proceed and Prosecution of Work**
36 *(July 23, 2015 APWA GSP)*

37
38 Notice to Proceed will be given after the contract has been executed and the contract bond and
39 evidence of insurance have been approved and filed by the Contracting Agency. The Contractor
40 shall not commence with the work until the Notice to Proceed has been given by the Engineer.
41 The Contractor shall commence construction activities on the project site within ten days of the
42 Notice to Proceed Date, unless otherwise approved in writing. The Contractor shall diligently
43 pursue the work to the physical completion date within the time specified in the contract.
44 Voluntary shutdown or slowing of operations by the Contractor shall not relieve the Contractor of
45 the responsibility to complete the work within the time(s) specified in the contract.

46
47 When shown in the Plans, the first order of work shall be the installation of high visibility fencing to
48 delineate all areas for protection or restoration, as described in the Contract. Installation of high
49 visibility fencing adjacent to the roadway shall occur after the placement of all necessary signs and
50 traffic control devices in accordance with 1-10.1(2). Upon construction of the fencing, the
51 Contractor shall request the Engineer to inspect the fence. No other work shall be performed on
52 the site until the Contracting Agency has accepted the installation of high visibility fencing, as
53 described in the Contract.

1
2 **1-08.5 Time for Completion**

3 *(January 19, 2022 APWA GSP, Option B)*

4
5 Revise the third and fourth paragraphs to read:

6
7 Contract time shall begin on the first working day following the 14 calendar day after the Notice to
8 Proceed date. If the Contractor starts work on the project at an earlier date, then contract time
9 shall begin on the first working day when onsite work begins.

10
11 Each working day shall be charged to the contract as it occurs, until the contract work is physically
12 complete. If substantial completion has been granted and all the authorized working days have
13 been used, charging of working days will cease. Each week the Engineer will provide the
14 Contractor a statement that shows the number of working days: (1) charged to the contract the
15 week before; (2) specified for the physical completion of the contract; and (3) remaining for the
16 physical completion of the contract. The statement will also show the nonworking days and any
17 partial or whole day the Engineer declares as unworkable. The statement will be identified as a
18 Written Determination by the Engineer. If the Contractor does not agree with the Written
19 Determination of working days, the Contractor shall pursue the protest procedures in accordance
20 with Section 1-04.5. By failing to follow the procedures of Section 1-04.5, the Contractor shall be
21 deemed as having accepted the statement as correct. If the Contractor is approved to work 10
22 hours a day and 4 days a week (a 4-10 schedule) and the fifth day of the week in which a 4-10
23 shift is worked would ordinarily be charged as a working day, then the fifth day of that week will be
24 charged as a working day whether or not the Contractor works on that day.

25
26 Revise the sixth paragraph to read:

27
28 The Engineer will give the Contractor written notice of the completion date of the contract after all
29 the Contractor's obligations under the contract have been performed by the Contractor. The
30 following events must occur before the Completion Date can be established:

- 31 1. The physical work on the project must be complete; and
- 32 2. The Contractor must furnish all documentation required by the contract and required by law, to
33 allow the Contracting Agency to process final acceptance of the contract. The following
34 documents must be received by the Project Engineer prior to establishing a completion date:
- 35 a. Certified Payrolls (per Section 1-07.9(5)).
 - 36 b. Material Acceptance Certification Documents
 - 37 c. Monthly Reports of Amounts Credited as DBE Participation, as required by the Contract
38 Provisions.
 - 39 d. Final Contract Voucher Certification
 - 40 e. Copies of the approved "Affidavit of Prevailing Wages Paid" for the Contractor and all
41 Subcontractors
 - 42 f. A copy of the Notice of Termination sent to the Washington State Department of Ecology
43 (Ecology); the elapse of 30 calendar days from the date of receipt of the Notice of
44 Termination by Ecology; and no rejection of the Notice of Termination by Ecology. This
45 requirement will not apply if the Construction Stormwater General Permit is transferred
46 back to the Contracting Agency in accordance with Section 8-01.3(16).
 - 47 g. Property owner releases per Section 1-07.24

48
49 (*****)

50 This project shall be physically completed within *** **10** *** working days. 5 working days for Ceres Hill
51 Road and 5 working days for Newaukum Alley Road.

1
2 **1-08.6 Suspension of Work**

3 Section 1-08.6 is supplemented with the following:

4
5 (*****)

6 Contract time may be suspended from the completion of work at Project Site 1 (either Ceres Hill Rd.
7 or Newaukum Valley Rd.) and the beginning of work at Project Site 2. In order to receive Suspension,
8 the Contractor shall submit, in writing, a request to the Engineer to suspend the Contract time within
9 one calendar day of the completion of work at Project Site 1 (either Ceres Hill Rd. or Newaukum Valley
10 Rd.). Suspension will not be granted if the Engineer determines work is not completed at Project Site
11 1 (either Ceres Hill Rd. or Newaukum Valley Rd.).

12
13 Charging of contract time will resume upon work beginning at Project Site 2 or 21 calendar days after
14 written approval of suspension by the Contracting Agency, whichever occurs first.

15
16 **1-08.9 Liquidated Damages**

17 *(March 3, 2021 APWA GSP, Option B)*

18
19 Revise the second and third paragraphs to read:

20
21 Accordingly, the Contractor agrees:

- 22
23 1. To pay (according to the following formula) liquidated damages for each working day
24 beyond the number of working days established for Physical Completion, and
25
26 2. To authorize the Engineer to deduct these liquidated damages from any money due or
27 coming due to the Contractor.

28
29 **Liquidated Damages Formula**

30
31 $LD=0.15C/T$

32
33 Where:

34
35 LD = liquidated damages per working day (rounded to the nearest dollar)

36 C = original Contract amount

37 T = original time for Physical Completion

38
39 When the Contract Work has progressed to Substantial Completion as defined in the Contract, the
40 Engineer may determine the Contract Work is Substantially Complete. The Engineer will notify
41 the Contractor in writing of the Substantial Completion Date. For overruns in Contract time
42 occurring after the date so established, the formula for liquidated damages shown above will not
43 apply. For overruns in Contract time occurring after the Substantial Completion Date, liquidated
44 damages shall be assessed on the basis of direct engineering and related costs assignable to the
45 project until the actual Physical Completion Date of all the Contract Work. The Contractor shall
46 complete the remaining Work as promptly as possible. Upon request by the Project Engineer, the
47 Contractor shall furnish a written schedule for completing the physical Work on the Contract.
48

49 **1-09, MEASUREMENT AND PAYMENT**

50
51 **1-09.9 Payments**

1 (March 13, 2012 APWA GSP)

2
3 Delete the first four paragraphs and replace them with the following:

4
5 The basis of payment will be the actual quantities of Work performed according to the Contract
6 and as specified for payment.

7
8 The Contractor shall submit a breakdown of the cost of lump sum bid items at the Preconstruction
9 Conference, to enable the Project Engineer to determine the Work performed on a monthly basis.
10 A breakdown is not required for lump sum items that include a basis for incremental payments as
11 part of the respective Specification. Absent a lump sum breakdown, the Project Engineer will
12 make a determination based on information available. The Project Engineer's determination of the
13 cost of work shall be final.

14
15 Progress payments for completed work and material on hand will be based upon progress
16 estimates prepared by the Engineer. A progress estimate cutoff date will be established at the
17 preconstruction conference.

18
19 The initial progress estimate will be made not later than 30 days after the Contractor commences
20 the work, and successive progress estimates will be made every month thereafter until the
21 Completion Date. Progress estimates made during progress of the work are tentative, and made
22 only for the purpose of determining progress payments. The progress estimates are subject to
23 change at any time prior to the calculation of the final payment.

24
25 The value of the progress estimate will be the sum of the following:

- 26
- 27 1. Unit Price Items in the Bid Form — the approximate quantity of acceptable units of work
completed multiplied by the unit price.
 - 28 2. Lump Sum Items in the Bid Form — based on the approved Contractor's lump sum
29 breakdown for that item, or absent such a breakdown, based on the Engineer's
30 determination.
 - 31 3. Materials on Hand — 100 percent of invoiced cost of material delivered to Job site or other
32 storage area approved by the Engineer.
 - 33 4. Change Orders — entitlement for approved extra cost or completed extra work as
34 determined by the Engineer.
- 35

36 Progress payments will be made in accordance with the progress estimate less:

- 37
- 38 1. Retainage per Section 1-09.9(1), on non FHWA-funded projects;
 - 39 2. The amount of progress payments previously made; and
 - 40 3. Funds withheld by the Contracting Agency for disbursement in accordance with the Contract
41 Documents.

42 Progress payments for work performed shall not be evidence of acceptable performance or an
43 admission by the Contracting Agency that any work has been satisfactorily completed. The
44 determination of payments under the contract will be final in accordance with Section 1-05.1.

45 **1-09.9(1) Retainage**

46 Section 1-09.9(1) is supplemented with the following:
47

1
2 **Retainage of 5 percent shall be as required by RCW 60.28.011.**

5
6 **1-09.11(3) Time Limitation and Jurisdiction**
7 *(November 30, 2018 APWA GSP)*
8

9 Revise this section to read:

10
11 For the convenience of the parties to the Contract it is mutually agreed by the parties that any
12 claims or causes of action which the Contractor has against the Contracting Agency arising from
13 the Contract shall be brought within 180 calendar days from the date of final acceptance (Section
14 1-05.12) of the Contract by the Contracting Agency; and it is further agreed that any such claims
15 or causes of action shall be brought only in the Superior Court of the county where the
16 Contracting Agency headquarters is located, provided that where an action is asserted against a
17 county, RCW 36.01.050 shall control venue and jurisdiction. The parties understand and agree
18 that the Contractor's failure to bring suit within the time period provided, shall be a complete bar to
19 any such claims or causes of action. It is further mutually agreed by the parties that when any
20 claims or causes of action which the Contractor asserts against the Contracting Agency arising
21 from the Contract are filed with the Contracting Agency or initiated in court, the Contractor shall
22 permit the Contracting Agency to have timely access to any records deemed necessary by the
23 Contracting Agency to assist in evaluating the claims or action.
24

25 **1-09.13 Claims Resolution**

26
27 **1-09.13(3)A Arbitration General**
28 *(January 19, 2022 APWA GSP)*
29

30 Revise the third paragraph to read:

31
32 The Contracting Agency and the Contractor mutually agree to be bound by the decision of the
33 arbitrator, and judgment upon the award rendered by the arbitrator may be entered in the Superior
34 Court of the county in which the Contracting Agency's headquarters is located, provided that
35 where claims subject to arbitration are asserted against a county, RCW 36.01.050 shall control
36 venue and jurisdiction of the Superior Court. The decision of the arbitrator and the specific basis
37 for the decision shall be in writing. The arbitrator shall use the Contract as a basis for decisions.
38

39 **1-09.13(4) Venue for Litigation**
40 *(January 19, 2022 APWA GSP)*
41

42 Revise this section to read:

45 headquarters is located, provided that where claims are asserted against a county, RCW
46 36.01.050 shall control venue and jurisdiction of the Superior Court. It is mutually agreed by the
47 parties that when litigation occurs, the Contractor shall permit the Contracting Agency to have
48 timely access to any records deemed necessary by the Contracting Agency to assist in evaluating
49 the claims or action.

Washington State Department of Labor and Industries
Policy Statement
(Regarding the Production of "Standard" or "Non-standard" Items)

Below is the department's (State L&I's) list of criteria to be used in determining whether a prefabricated item is "standard" or "non-standard". For items not appearing on WSDOT's predetermined list, these criteria shall be used by the Contractor (and the Contractor's subcontractors, agents to subcontractors, suppliers, manufacturers, and fabricators) to determine coverage under RCW 39.12. The production, in the State of Washington, of non-standard items is covered by RCW 39.12, and the production of standard items is not. The production of any item outside the State of Washington is not covered by RCW 39.12.

1. Is the item fabricated for a public works project? If not, it is not subject to RCW 39.12. If it is, go to question 2.
2. Is the item fabricated on the public works jobsite? If it is, the work is covered under RCW 39.12. If not, go to question 3.
3. Is the item fabricated in an assembly/fabrication plant set up for, and dedicated primarily to, the public works project? If it is, the work is covered by RCW 39.12. If not, go to question 4.
4. Does the item require any assembly, cutting, modification or other fabrication by the supplier? If not, the work is not covered by RCW 39.12. If yes, go to question 5.
5. Is the prefabricated item intended for the public works project typically an inventory item which could reasonably be sold on the general market? If not, the work is covered by RCW 39.12. If yes, go to question 6.
6. Does the specific prefabricated item, generally defined as standard, have any unusual characteristics such as shape, type of material, strength requirements, finish, etc? If yes, the work is covered under RCW 39.12.

Any firm with questions regarding the policy, WSDOT's Predetermined List, or for determinations of covered and non-covered workers shall be directed to State L&I at (360) 902-5330.

**WSDOT's
Predetermined List for
Suppliers - Manufactures - Fabricator**

Below is a list of potentially prefabricated items, originally furnished by WSDOT to Washington State Department of Labor and Industries, that may be considered non-standard and therefore covered by the prevailing wage law, RCW 39.12. Items marked with an X in the "NO" column should be considered to be standard and therefore not covered. Of course, exceptions to this general list may occur, and in that case shall be evaluated according to the criteria described in State and L&I's policy statement.

Prefabricated items specifically produced for public works projects that are prefabricated in a county other than the county wherein the public works project is to be completed, the wage for the offsite prefabrication shall be the applicable prevailing wage for the county in which the actual prefabrication takes place.

It is the manufacturer of the prefabricated product to verify that the correct county wage rates are applied to work they perform.

See RCW [39.12.010](#)

(The definition of "locality" in RCW [39.12.010](#)(2) contains the phrase "wherein the physical work is being performed." The department interprets this phrase to mean the actual work site.

Policy Statements
(Regarding Production and Delivery of Gravel, Concrete, Asphalt, etc.)**

WAC 296-127-018 Agency filings affecting this section

Coverage and exemptions of workers involved in the production and delivery of gravel, concrete, asphalt, or similar materials.

(1) The materials covered under this section include but are not limited to: Sand, gravel, crushed rock, concrete, asphalt, or other similar materials.

(2) All workers, regardless of by whom employed, are subject to the provisions of chapter 39.12 RCW when they perform any or all of the following functions:

(a) They deliver or discharge any of the above-listed materials to a public works project site:

(i) At one or more point(s) directly upon the location where the material will be incorporated into the project; or

(ii) At multiple points at the project; or

(iii) Adjacent to the location and coordinated with the incorporation of those materials.

(b) They wait at or near a public works project site to perform any tasks subject to this section of the rule.

(c) They remove any materials from a public works construction site pursuant to contract requirements or specifications (e.g., excavated materials, materials from demolished structures, clean-up materials, etc.).

(d) They work in a materials production facility (e.g., batch plant, borrow pit, rock quarry, etc.) which is established for a public works project for the specific, but not necessarily exclusive, purpose of supplying materials for the project.

(e) They deliver concrete to a public works site regardless of the method of incorporation.

(f) They assist or participate in the incorporation of any materials into the public works project.

(3) All travel time that relates to the work covered under subsection (2) of this section requires the payment of prevailing wages. Travel time includes time spent waiting to load, loading, transporting, waiting to unload, and delivering materials. Travel time would include all time spent in travel in support of a public works project whether the vehicle is empty or full. For example, travel time spent returning to a supply source to obtain another load of material for use on a public works site or returning to the public works site to obtain another load of excavated material is time spent in travel that is subject to prevailing wage. Travel to a supply source, including travel from a public works site, to obtain materials for use on a private project would not be travel subject to the prevailing wage.

(4) Workers are not subject to the provisions of chapter 39.12 RCW when they deliver materials to a stockpile.

(a) A "stockpile" is defined as materials delivered to a pile located away from the site of incorporation such that the stockpiled materials must be physically moved from the stockpile and transported to another location on the project site in order to be incorporated into the project.

(b) A stockpile does not include any of the functions described in subsection (2)(a) through (f) of this section; nor does a stockpile include materials delivered or distributed to multiple locations upon the project site; nor does a stockpile include materials dumped at the place of incorporation, or adjacent to the location and coordinated with the incorporation.

(5) The applicable prevailing wage rate shall be determined by the locality in which the work is performed. Workers subject to subsection (2)(d) of this section, who produce such materials at an off-site facility shall be paid the applicable prevailing wage rates for the county in which the off-site facility is located. (The Contract as defined herein includes the aforesaid agreement together with all of the Contract documents including addenda, exhibits, attachments, modifications, alterations, and additions thereto, deletions therefrom, amendments and any other document or provision attached to or incorporated into the Contract)

THE PARTIES FURTHER ACKNOWLEDGE & AGREE AS FOLLOWS:

- (1) Surety hereby consents to, and waives notice of, any alteration, change order, or other modification of the Contract and any extension of time made by County, except that any single or cumulative change order amounting to more than twenty-five percent (25%) of the penal sum of this bond shall require Surety's written consent.
- (2) Surety recognizes that the Contract includes provisions for additions, deletions, and modifications to the work or Contract Time and the amounts payable to Contractor. Subject to the limitations contained in paragraph (1) above, no such change or any combination thereof, shall void or impair Surety's obligation hereunder.
- (3) Surety is subject to the provisions contained in Section 1-03.4, "Contract Bond," of the Washington State Department of Transportation (WSDOT) Standard Specifications for Road, Bridge, and Municipal Construction. And such provisions are incorporated by reference. A copy may be viewed at WSDOT's website www.wsdot.wa.gov/fasc/EngineeringPublications/Manuals/.
- (4) Whenever County has declared Contractor to be in default and County has given Surety written notice of such declaration, Surety shall promptly (in no event more than thirty [30] days following receipt of such notice), specify, in written notice to County, which of the following actions Surety intends to take to remedy such default, and thereafter shall:

 - (c) Pay County upon completion of the Contract, in cash, the cost of completion together with all other reasonable costs and expenses incurred by County as a result of Contractor's default, including but not limited to those incurred by County to mitigate its losses, which may include but are not limited to attorneys' fees and the cost of efforts to complete the work prior to Surety's exercising any option available to it under this Bond; or
 - (d) Obtain a bid or bids for completing the Contract in accordance with its terms and conditions, and upon a determination by County and Surety jointly of the lowest responsible bidder, arrange for one or more agreements between such bidder and County, and make available as work progresses (even though there is a default or a succession of defaults under such agreement(s) for completion arranged for under this paragraph) sufficient funds to pay the cost of completion less the balance of the Contract price, but not exceeding, including other costs and damages for which Surety may be liable hereunder, the penal sum of this Bond. The term "balance of the Contract price," as used in this paragraph, shall mean the total amount payable by County to Contractor under the Contract, less the amount properly paid by County to Contractor.

APPENDIX D

INADVERTENT DISCOVERY PLAN

PLAN FOR THE INADVERTENT DISCOVERY OF CULTURAL RESOURCES DURING CONSTRUCTION

Should construction activities cause disturbance to underground cultural/archaeological resources the following section establishes provisions for the professional archaeological treatment of cultural materials discovered during usual construction activities.

1. Recognize Cultural Resources

A cultural resource discovery could be prehistoric or historic and consist of:

- areas of charcoal or charcoal - stained soil with artifacts,
- stone tools or waste flakes (i.e. an arrowhead, or stone chips),
- bones, burned rocks, accumulation of shells or other food related materials in association with stone tools or flakes,
- a cluster of tin cans or bottles, logging or agricultural equipment older than 50 years,
- or buried railroad tracks, decking, or other industrial materials.

If human remains are encountered, treat them with dignity and respect at all times. Cover the remains with a tarp or other materials (not soil or rocks) for temporary protection in place and to shield them from being photographed. **Do not call 911** or speak with the media. Follow the special procedures for the Unanticipated Discovery of Human Skeletal Material.

2. Protect the Site

If any Lewis County employee, contractor, or subcontractor believes that he or she has uncovered any cultural resource at any point in the project, all work adjacent to the discovery shall cease. In order to protect the integrity of a discovery the Lewis County Project Engineer will take appropriate steps to protect the discovery site by ceasing all work in an area of **30 feet** to provide for the protection and integrity of the resource. Vehicles, equipment, and unauthorized personnel will not be permitted to traverse the discovery site. Work in the immediate area will not resume until treatment of the discovery has been completed following provisions for treating archaeological/cultural material as set forth in this document. All communications between Lewis County and any agency on cultural resource issues will go through the Environmental Planner.

3. Notify Appropriate Parties

Lewis County Project Engineer, or their appointee, will immediately contact the Environmental Planner.

4. Documentation of Discoveries

Routine documentation of newly discovered cultural material should not impact construction schedules. Where complex or extensive cultural remains are encountered, the project manager, Environmental Planner and qualified archaeological personnel will determine the appropriate level of documentation and treatment of the resource after consultation with DAHP and representatives of affected tribal governments.

SPECIAL PROCEDURES FOR THE UNANTICIPATED DISCOVERY OF HUMAN SKELETAL MATERIAL

Any human skeletal remains regardless of ethnic origin, which may be discovered during this project, will at all times be treated with dignity and respect. In the event that any human remains are discovered and they are determined to be of Native American origin, the affected Native American Tribe(s) will be immediately notified by Lewis County.

1. During this construction project, if any Lewis County employee or any of the contractors or subcontractors believes that he or she has made an unanticipated discovery of human skeletal remains, all excavation adjacent to the discovery shall cease. A **100-foot** work stoppage area will be maintained around the discovery to provide for the total security, protection, and integrity of the human skeletal remains, in accordance with Washington State Law. No persons other than the proper law enforcement personnel, Environmental Planner, and DAHP staff will be authorized direct access to the discovery location after the area is secured. If the remains are determined to be of Native American ancestry thorough consultation with DAHP, then tribal access will be allowed when the affected tribe(s) representative(s) are designated. Coordination for tribal member access must go through the designated tribal representative. The strict control of a burial location is mandated to insure the safety and integrity of the burial feature and remains.

2. Following the specific guidance set forth here, the Environmental Planner will immediately call the local law enforcement official (county sheriff or police department; NOT 911) and will insure an individual competent and qualified to identify human skeletal remains is present. The ethnic origin, or ancestry, of the discovered human remains will be determined through consultation with the Environmental Planner, DAHP, and the affected tribe(s). The local law enforcement official may arrange for a representative of the Lewis County Medical Examiner's office to examine the discovery and determine whether it should be treated as a crime scene, a historic Euro-American burial, or as a burial of Native American ancestry.

C. If the human skeletal remains are determined to be Native American, the participating parties will consult to determine what treatment is appropriate for the human remains. No Native American human remains will be removed from a site without the explicit consent and concurrence of the affected tribe(s) and DAHP.

D. If disinterment of Native American human remains becomes necessary; the consulting parties will jointly determine the final custodian of the human skeletal remains for reinterment.
